

LPG Presents A Colorful New Wellbox® Special Edition

Great for an instant facial lift before you go out!

DUBAI, UAE, June 11, 2015
/EINPresswire.com/ -- Dubai, UAE, June 11th 2015: French beauty brand [LPG](#) unveils its newest Wellbox Special Edition, an at home, non-invasive professional beauty care device, inspired by the colorful summer season. Taking its cue from the fashion industry, Wellbox's first Spring/Summer collection comes in a range of contemporary shades of deep blue to evergreen, citrus, blooming red and nude.

Wellbox Special Edition has a sleek 'pod' design, compact, portable, lightweight and easy-to-transport. This revolutionary anti-aging and body-slimming device can help you maintain healthy, youthful and glowing skin for your face and a toned, slim body right in the comfort of your own

home.

It is a small beauty device that combines two famous LPG patented technologies: Lipomassage & Endermolift. It offers unprecedented visible results. Reinvent your daily beauty routine with the Wellbox. It uses the same technology as the CelluM6, which is based on cellular stimulation and can be used for maintenance at your convenience.

Based on French technology and designed by renowned skin care specialists, Wellbox stops the signs of aging at the cellular level. It delivers visibly younger skin, clearer complexion, reduced wrinkles, and re-sculpts your body for a firmer skin and refined figure. You can use it as much as you want and anytime you feel like you need a boost.

It is Practical and Portable. Sleek and attractively curved, Wellbox is a compact collection of intelligent accessories designed to allow easy and natural stimulation of your skin every day, at home or on holiday, in complete freedom.

Powerful, Effective and Non-aggressive. Wellbox stimulates the skin's surface to generate deep boosting effects. The micro-pulsations created by the Lift treatment heads encourage your collagen and elastin to produce better quality and volumes, helping your skin to maintain its density, firmness

and youth for longer.

Multifunctional. The Wellbox technology is multi-purpose: it helps to refresh a tired complexion in the morning, eliminate dark circles, drain the face, boost radiance, smooth and prevent wrinkles, and firm the skin. Its all-round action also helps to sculpt the figure and tone the skin.

Your secret weapon for firm skin. A Wellbox is a wise long-term investment in your skin's future! Exercising your fibroblasts today means greater firmness tomorrow and beyond. Denser, more rounded and plumper skin, more clearly defined facial contours and a firm neck, with no aggressive action required. All of these in a compact device.
