

Getting cyber secure with ISO 27001 is more affordable than ever

ELY, UK, June 17, 2015

/EINPresswire.com/ -- [IT Governance](#), the global leader in information security expertise, urges organisations to get cyber secure now by implementing ISO 27001, the international information security standard.

Alan Calder, founder and executive chairman of IT Governance, says, "With data breaches on the rise and the imminent threat of new major vulnerabilities, organisations must do everything in their power to improve cyber security.

"ISO 27001 not only helps you get the basics right, but it also ensures you implement a company-wide information security management system that, if maintained and updated properly, will provide an ongoing protection from cyber attacks."

96% of respondents to IT Governance's [ISO 27001 Global Survey 2015](#) said that ISO 27001 plays an important role in improving their company's cyber security defences.

IT Governance has made ISO 27001 implementation accessible and affordable for organisations anywhere in the world, by offering unique 'all-in' [ISO27001 packaged solutions](#).

Calder says: "There is no other company in the world that can provide this combination of resources – including books, documentation templates, training and consultancy – accessible online and available at a fixed-price to meet any company's needs and budget requirements. Our transparent, fixed prices enable every organisation, anywhere in the world, to know exactly what their chosen journey to ISO27001 certification will cost them."

'The Basics', 'Do It Yourself', 'Get A Little Help', 'Get A Lot Of Help' and 'We Do It For You' packages can be booked online at www.itgovernance.co.uk/iso27001-solutions.aspx.

Organisations that purchase any of these packages in June 2015 will save 10%, making ISO 27001 more affordable than ever.

Alternatively, organisations can call 0845 070 1750 or send an email to request a custom quote.
