

PUB HTML5 Unveils Upgraded Flip Book Maker with Perfect Animation Editor

The powerful page editing features have been improved for people to create multimedia digital flip books easily.

HONG KONG, CHINA, June 24, 2015 /EINPresswire.com/ -- PUB HTML5, a leading provider of HTML5 digital publishing software, has released an upgraded [flip book maker](#) with perfect animation editor. An enhancement of their already-popular flip book maker, the upgrade was completed as an answer to the professional users who sought more powerful and innovative page-editing functions in the software.

The new version allows for a better PDF to page-flipping conversion and makes content more engaging and readable. Additionally, users are now able to edit their digital flip books with rich multimedia including dynamic text, audio, video, flash animation, image, photo slideshow, and more. This innovative upgrade to the animation editor even allows users to create new flip books from blank pages.

PUB HTML5 Chief Technology Officer, Jason Chen said, "We are pleased to be able to meet the demand of the top creative professionals in the market. It's important to our company to stay ahead of the trend and provide our customers with the top-level product and service they have come to expect from us."

With a full offering of more than 150 customized options, the upgraded PUB HTML5 flip book maker includes components to better create custom logos, background, music, videos and even button graphics. Perhaps the most important aspect of the original and upgraded flip books is the easy-to-use interface that allows for even the lesser-experienced designer to create a digital catalog.

Users are able to create their projects quickly by importing and uploading their PDFs. Next, they add creative touches like enriched multi-media, animation and various interactive components to make their projects even more unique. After this, the rest is simple; the user is able to easily publish and share their new flip books as they wish.
