New Live Online ISO 27001 Foundation training course for the Asia-Pacific region

IT Governance has announced the launch of a new Asia-Pacific ISO 27001 Certified ISMS Foundation Online training course.

SYDNEY, AUSTRALIA, June 29, 2015 /EINPresswire.com/ -- IT Governance, the leading international cyber security training provider, has announced the launch of a new ISO 27001 Certified ISMS Foundation Online training course, which will be delivered in an Asia-Pacific-friendly time zone – Australian Western Standard Time.

Delegates across Australia and the rest of the APAC region can now attend this course for two three-and-a-half-hour sessions, on 4 and 5 August 2015 at 13:00 AWST, and take advantage of the new opportunity to achieve an industry-recognised qualification while learning about the international standard for information security management, ISO 27001.

Alan Calder – founder and executive chairman of IT Governance and author of the bestselling guide, IT Governance - An International Guide to Data Security and ISO27001/ISO27002 – hopes the new course time will attract delegates from across the APAC region:

> **ISO 27001 adoption is increasing steadily in Australia and other Asia-Pacific countries, so the need for trained professionals is increasing too."**
>
> *Alan Calder, founder and executive chairman of IT Governance*

"We have made great progress across the UK, Europe and America with our ISO 27001 Live Online training courses, but we want to make this invaluable resource available to our Asia-Pacific customers too. ISO 27001 adoption is increasing steadily in Australia and other Asia-Pacific countries, so the need for trained professionals is increasing too. Our Live Online courses are the most efficient and cost-effective way of providing one-on-one training to our customers."

IT Governance's Live Online training courses are highly regarded in Europe and North America, offering delegates a certificated learning pathway to achieving valuable ISO 27001 qualifications – including Foundation, Lead Implementer and Lead Auditor – from the comfort of their own home or office.

The courses' unique Live Online delivery makes it possible for any IT professional across the world to attend without incurring the costs traditionally associated with classroom training, while enjoying a near in-person experience with the trainer.

All Live Online courses include an exam – accredited by IBITGQ – successful completion of which leads to an industry-recognised qualification.

For more information, or to book your place on the ISO 27001 Certified ISMS Foundation Online course, visit IT Governance here: www.itgovernance.asia/p-1041.aspx.
