

Third World Congress on Ovulation Induction & Ovarian Stimulation Protocols (WOOSP2015) at Seychelles

WOOSP2015 at Seychelles is the country's first IVF Conference

MAHE, VICTORIA, SEYCHELLES, June 28, 2015 /EINPresswire.com/ --

Ovulation induction remains the cornerstone of therapeutic procedures used for the treatment of infertility, such as assisted reproduction and the management of anovulation. Due to Innovative drugs and protocols introduced in the last few years, ovulation induction is becoming increasingly more efficacious, cost effective, and safe. [The 3rd World Congress on Ovulation](#)

[Induction & Ovarian Stimulation Protocols](#) will be an outstanding opportunity to learn and discuss these new developments with International key opinion leaders in this field. The 3rd in the series of World Congress on Ovulation Induction & Ovarian Stimulation Protocols (WOOSP) meetings; a part of the IVF Lite Foundation CMEs, will be held at the <http://www.edenbleu.com/> and <http://www.berjayahotel.com/mahe/en/home> at Seychelles. The Republic of Seychelles comprises 115 islands

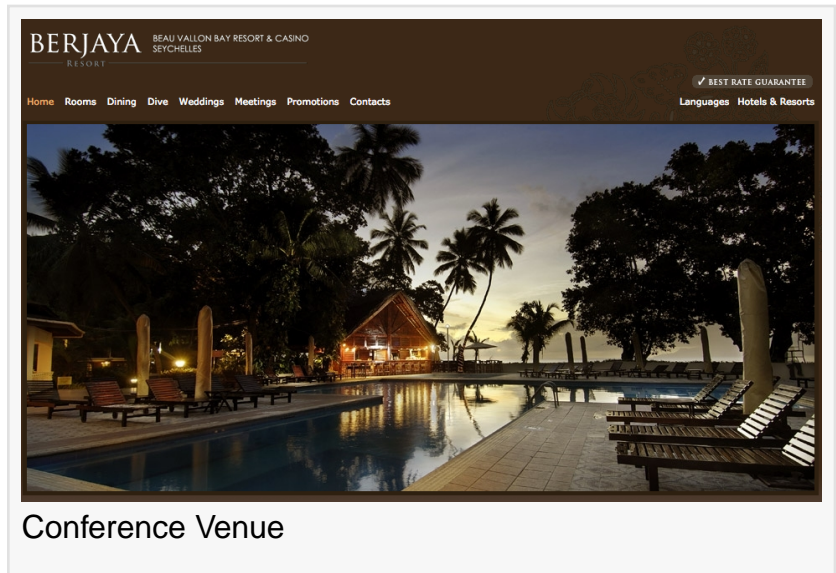

Conference Venue

representing an archipelago of legendary beauty that extends from between 4 and 10 degrees south of the equator and which lies between 480km and 1,600km from the east coast of Africa. Of these 115 islands, 41 constitute the oldest mid-oceanic granite islands on earth while a further 74 form the low-lying coral atolls and reef islands of the Outer Islands. The granitic islands of the Seychelles archipelago cluster around the main island of Mahé, home to the international airport and the capital, Victoria, and its neighboring islands of Praslin and La Digue. Together, these Inner Islands form the cultural and economic hub of the nation and contain the majority of Seychelles' tourism facilities as well as its most stunning beaches.

Seychelles is home to no less than two UNESCO World Heritage Sites: the legendary Vallée de Mai on Praslin where the wondrously shaped Coco-de-mer nut grows high on ancient palms and the

fabled Aldabra, the world's largest raised coral atoll, first seen by early Arab seafarers of the 9th century A.D. Some scholars assume that Austronesian seafarers and later Maldivian and Arab traders were the first to visit the uninhabited Seychelles. The earliest recorded sighting by Europeans took place in 1502 by the Portuguese Admiral Vasco da Gama, who passed through the Amirantes and named them after himself (islands of the Admiral). The earliest recorded landing was in January 1609, by the crew of the "Ascension" under Captain Sharpeigh during the fourth voyage of the English East India

Company. A transit point for trade between Africa and Asia, the islands were occasionally used by pirates until the French began to take control starting in 1756 when a Stone of Possession was laid by Captain Nicholas Morpheu. The islands were named after Jean Moreau de Séchelles, Louis XV's Minister of Finance. The British contested control over the islands between 1794 and 1810. Jean Baptiste Quéau de Quincy, French administrator of Seychelles during the years of war with the United Kingdom, declined to resist when armed enemy warships arrived. Instead, he successfully negotiated the status of capitulation to Britain which gave the settlers a privileged position of neutrality. Britain eventually assumed full control upon the surrender of Mauritius in 1810, formalised in 1814 at the Treaty of Paris. Seychelles became a crown colony separate from Mauritius in 1903. Elections were held in 1966 and 1970. Independence was granted in 1976 as a republic within the Commonwealth. In the 1970s the Seychelles was "the place to be seen, a playground for film stars and the international jet set". In the 1980s there was a series of coup attempts against President France-Albert René, some of which were supported by South Africa. In 1981, Mike Hoare led a team of 43 South African mercenaries masquerading as holidaying Rugby players in a coup attempt in what is known as The Seychelles Affair. There was a gun battle at the airport, and most of the mercenaries later escaped in a hijacked Air India plane. In 1986, an attempted coup led by the Seychelles Minister of Defense, Ogilvy Berlouis, caused President René to request assistance from India. In Operation Flowers are Blooming, the Indian naval vessel INS Vindhyagiri arrived in Port Victoria to help avert the coup.

Topics to be covered include Ovarian stimulation strategies; primary, secondary and tertiary prevention of OHSS; development of protocols for patients with diminished ovarian reserve; ovarian reserve testing and its practical implications; mild stimulation and financial implications, segmentation of IVF treatment; impact of ovarian stimulation on the endometrium; and emergency stimulation for onco-fertility patients. We have a 26 member International Faculty volunteering their time to disseminate cutting edge knowledge from 17 countries including India, Israel, Egypt, UAE, UK, Turkey, Iran, Hungary, Japan, Spain, Germany, Ghana, USA, Mexico, UAE & South Africa. Do not miss these three Orations at WOOSP 2015:

1. Use of anti-müllerian hormone to design ovarian stimulation – Prof Bala Bhagavath, USA
2. Conventional ovarian stimulation no longer exists: welcome to the age of individualized ovarian stimulation – Prof Hassan Sallam, Egypt
3. Significance of premature progesterone rise in IVF – Prof Peter Kovacs, Hungary

Please read the detailed Program at <http://www.woosp.in/scientificprogram.html>. Please visit <http://j.mp/woosp2015> for full mailer, as well as the complete WOOSP2015 mailer archives.

IVF Lite Foundation & Rotunda-The Center For Human Reproduction (<http://www.iwannagetpregnant.com>) are the first Indian organizations to endorse a Medical meeting at Seychelles and this event is creating history in 2015! The First 200 Registrants will get a free Subscription for One Year of the [Journal of Minimal Stimulation IVF](#) (IVF Lite). This landmark meeting is hosted by [Zimt Conferences & Seminars](#) Organizing which is a company based in Dubai, UAE. The company has garnered exclusive rights to host the World Congress on Ovulation Induction & Ovarian Stimulation Protocols (<http://www.woosp.in>) for a tenure of 11 years at exclusive beach resorts in Asia/Africa beginning from the WOOSP2015 which will be hosted at Seychelles in September 2015. To promote original research and encourage scientific publications from Asia, Zimt Conferences & Seminars Organizing UAE has offered a USD 200 Meeting Registration Fee discount (plus USD 200 discount to spouse) for any author whose scientific work gets accepted and published in <http://www.ivflite.org/>

Please check out our online case presentations from WOOSP2014 at <https://www.youtube.com/watch?v=pzqePqrUff8>
