*Zionism Subverts Western Democracies To Facilitate The Denial Of Palestinian Heritage, History, And Human Rights*

LONDON, UNITED KINGDOM, July 15, 2015 /EINPresswire.com/ -- Following the end of the Second World War, the Zionist obsession with the illusionary God-given dreams of establishing a Jewish state with religious exclusiveness and colonial expansion, was aided by a global sympathy induced by revelations of the nazi death camps and the horrors of what was dubbed as the "Holocaust." At the time of Israel's establishment as a state in 1948, the general consensus of opinion was that Israel's questionable creation had been permitted as a conscious and wilful act of compensation — particularly by Western nations subject to lobbying and pressure from the World Zionist Organisation (WZO) — for the Holocaust. In 1895 Edmond James de Rothschild

visited Palestine and subsequently supplied the funds to establish the first Jewish colonies there as part of the Rothschilds long term objective of creating its own Zionist state. The fact that this "compensation" was going to be payed for with Palestinian land and lives, did not appear to bother the global conscience which was understandably but unforgivably caught up in a Holocaust hysteria feverishly stoked and fully exploited by WZO leaders and their ideologically deluded supporters.

Founding of WZO was initiated by the Rothschild Banking Dynasty in cooperation with Theodor Herzl at the First Zionist Congress which took place in August 1897 in Basel, Switzerland when the "Rothschild Red Sign" was adopted as the Zionist flag that 51 years later ended up as the flag of Israel. When it was founded, the goals of the Zionist movement were stated in a resolution that came to be known as the "Basel Program" with the aim of "establishing for the Jewish people a legally assured home in Palestine. For the attainment of this purpose, the Congress considers the following means serviceable:

1. The promotion of the settlement of Jewish agriculturists [farmers], artisans, and tradesmen in Palestine;
2. The federation [unified organisation] of all Jews into local or general groups, according to the laws of the various countries;
3. The strengthening of the Jewish feeling and consciousness [national sentiment and national consciousness];
4. Preparatory steps for the attainment of those governmental grants which are necessary to the achievement of the Zionist purpose."
