

Florida Mesothelioma Victims Center Now Offers A Diagnosed Victim in Florida Much Better Choices When it Comes To Lawyers for Compensation and Doctors for Treatment

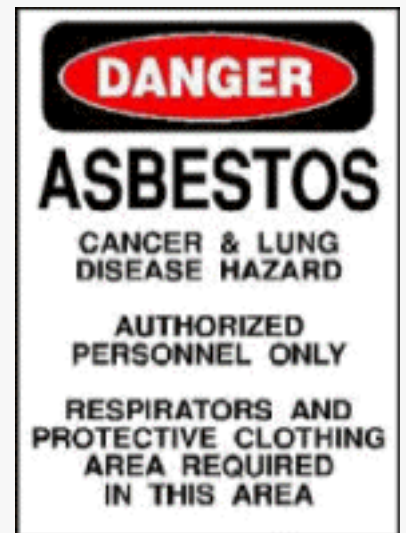

WASHINGTON, DC, USA, July 27, 2015 /EINPresswire.com/ -- The Florida Mesothelioma Victims Center says, "Most diagnosed victims of mesothelioma were not exposed to asbestos in Florida. In most instances we know about the diagnosed individual was exposed to asbestos at a Northeast, or Midwest workplace, and the person with this rare cancer retired, and moved to Florida, or the individual was exposed while serving in the US Navy.

"We also know when it comes to Florida and a diagnosed victim of mesothelioma, or their family finding the most qualified mesothelioma lawyer things can get super confusing, especially when you throw in all of nonsense on the Internet, or cable TV.

"If there was one extremely good piece of advice we would like to give a diagnosed victim of mesothelioma in Florida or their family it would be call us at 866-714-6466 so we can carefully explain how vital it is to have one of the nation's most experienced lawyers advancing their compensation claim. At the same time we would value an opportunity to help a diagnosed victim get the best possible treatment options." <http://Florida.MesotheliomaVictimsCenter.Com>

For the best possible mesothelioma treatment options in Florida the Florida Mesothelioma Victims Center strongly recommends the following health care facility with the offer to help a diagnosed victim, or their family get to the right physicians at this hospital.

The H. Lee Moffitt Cancer Center in Tampa, Florida:

The average age for a diagnosed victim of mesothelioma in the United States is 72 years old. Frequently victims of mesothelioma are initially misdiagnosed with pneumonia. This year between 2500, and 3000 US citizens will be diagnosed with mesothelioma. Mesothelioma is attributable to exposure to asbestos.

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon.

However, based on the calls the Mesothelioma Victims Center receives a diagnosed victim of mesothelioma could live in any state including New York, Florida, California, Texas, Illinois, Ohio, Iowa, Indiana, Missouri, North Carolina, Kentucky, Tennessee, Georgia, Alabama, Oklahoma, Arkansas, Kansas, Nebraska, North Dakota, Wyoming, Colorado, New Mexico, Utah, Nevada, Arizona, Idaho, or Alaska.

High risk work groups for exposure to asbestos in Florida include US Navy Veterans, or former power plant workers, shipyard workers, oil refinery workers, steel mill workers, manufacturing, or industrial workers, plumbers, electricians, auto mechanics, machinists, miners, or construction workers. Typically the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.
