EaseUS Data Recovery Software Helps Retrieve Lost Data on Computer

EaseUS data recovery software greatly increases data security by recovering lost data from hard drive and storage devices.

NEW YORK, NY, USA, July 15, 2015 /EINPresswire.com/ -- EaseUS Software, a World's leading online software company that specializes in data backup, data recovery and storage management software, built and updated its data recovery software, EaseUS Data Recovery Wizard which is designed for home users to deal with all unexpected data loss disaster. It is popular among users for its easy three-step data recovery solution to restore lost files including pictures, videos, audio files, documents, emails. Be capable of recovering everything that users lost, the program contributes to increasing data security.

EaseUS data recovery software greatly increases data security by recovering lost data from hard drive and storage devices.

Data loss on hard drive caused by accidental deletion, hard drive crash or other reasons is one of the most common data loss situations. A vast majority of users annoyed by such a case. So the company keeps updating its data recovery software, aiming to enhance hard drive data recovery capacity and providing more comfortable user experience. And good effects has achieved. The program allows users to get back lost data from hard drive with just three simple steps, no matter how the data get lost.

As a professional data recovery software, in addition to hard drives, EaseUS Data Recovery Wizard also supports all the removable storage devices such as USB drives, memory cards, pen drives, etc. It works extremely well in memory card recovery. It means that users can use this program to recover lost files from SD cards, CF cards, XD cards and devices such as digital cameras, mobile phones, tablets that support memory card.

EaseUS data recovery software performs especially well in deleted file recovery, for more detailed information, you can refer to: http://www.easeus.com/recover-deleted-files/
