

Minnesota Mesothelioma Victims Center Now Offers to Assist a Diagnosed Victim Not Only Get The Best Lawyers for Compensation But also offers tips for the Family to protect their Loved One

WASHINGTON, DC, USA, August 7, 2015 /EINPresswire.com/ -- The Minnesota Mesothelioma Victims Center says, "We will never forget a call from a family member who did not understand that there was not a national caliber mesothelioma law firm in Duluth, Minnesota to handle a compensation claim for a US Navy Veteran who had developed this rare form of cancer.

"If you are a diagnosed victim of mesothelioma in Minnesota, or their family members please call us at 866-714-6466 so we can explain why it is so incredibly vital to hire one of the nation's best possible mesothelioma lawyers. As we would like to explain if you choose poorly it can get very expensive, as in the loss of what could have been hundreds of thousands dollars, or more in lost compensation."

Vital Mesothelioma Compensation Tips from the Minnesota Mesothelioma Victims Center:

#1. A diagnosis for mesothelioma typically comes out of the blue, and the person with this rare form of cancer, and their family members are ill prepared for the news. The Center says, "The worst mistake people in this situation make is they impulsively go to the Internet and they see no lawsuit needed, or just fill out a claims card and you get money. These examples are both very, very poor suggestions. If you call us at 866-714-6466 we can put a diagnosed victim, or their family members in touch with national caliber mesothelioma lawyers who have a proven track record of the best compensation results in Minnesota."

#2. The adult children fail to get to their father before his new wife, and as a result they are not included in the will, and their ability to see their

dad in his last days becomes almost impossible. The Center says, "We see this one all the time. The new wife, or girl friend excludes the adult children of the diagnosed victim of mesothelioma because of money. The net result is the family has a breakdown, or the adult children of the diagnosed victim no longer speak to their step mother, or their dad's girl friend.

#3. If a diagnosed victim in Minnesota, or their family members would call us we would like to prepare a checklist of

getting a family organized to support, and help their loved one, and treatment options."

For the best possible [mesothelioma treatment](#) options in Minnesota the Minnesota Mesothelioma Victims Center strongly recommends the following health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at each hospital.

* The Mayo Clinic Rochester, Minnesota: <http://www.mayoclinic.org/diseases-conditions/cancer/basics/definition/con-20032378>

* Masonic Cancer Center – University of Minnesota Minneapolis, Minnesota: <http://www.cancer.umn.edu/>

The Mesothelioma Victims Center of Minnesota wants to emphasize their services are available to anyone in Minnesota, regardless of where they live, such as Minneapolis, Rochester, Saint Paul, Duluth, Saint Cloud, etc. <http://Minnesota.MesotheliomaVictimsCenter.Com>

According to the US Center for Disease Control the average age for a diagnosed victim of mesothelioma is 72 years old. Frequently victims of mesothelioma are initially misdiagnosed with pneumonia. This year between 2500, and 3000 US citizens will be diagnosed with mesothelioma. Mesothelioma is attributable to exposure to asbestos.

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon.

High risk work groups for exposure to asbestos in Minnesota include US Navy Veterans, power plant workers, oil refinery workers, manufacturing, or industrial workers, plumbers, electricians, welders, auto mechanics, machinists, or construction workers. Typically the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. <http://Minnesota.MesotheliomaVictimsCenter.Com>
