LONDON, ENGLAND, July 22, 2015 /EINPresswire.com/ -- Primordia - The Kinship is the first book in a new series by [new author](#) Curtis Sylvia. Positing a future where lifespan have increased to the level of near immortality, the race is on to find a new home for the human race before the rising population runs out of resources. A timely vision of world out of control and impending global catastrophe sets the ground for this extraordinary series.

Book one of the Primordia series, The Kinship, has just been published by [Mirador Publishing](#) and is already causing a lot of interest across the internet. The influential Book Reviewer Website describes Curtis Sylvia as "An author to watch out for." This first book launches the series in dramatic style with the scout spacecraft crash landing on a seemingly primitive planet. However, it's not long before the crew discover all is not as it seems and with the fate of humanity in their hands they need to find a way to settle this world. But Primordia is a world of violence, magic and unspeakable evil.

"I have been writing stories for as long as I can remember," said Curtis. "I used to write in school during every class, except English, it was the only class I cared about."

He began to write his sci-fi/fantasy book series "Primordia" shortly after he left school.

The Primordia series is actually a mature version of the childhood adventures Curtis would make up with his friend. The first title used was "Prime" for its definition meaning first. Because Primordia is the first world out of five essential to the story.

Primordia - The Kinship is published by Mirador Publishing and is available as both paperback and eBook in all good bookshops and online stores.
