

BAE Systems, Lockheed Martin, Thales Australia & General Dynamics are to unveil their latest armoured vehicle strategies

Future Armoured Vehicles Survivability 2015 will address recent industry developments to help you optimise armoured vehicle platform for maximum protection.

LONDON, ENGLAND, UNITED KINGDOM, August 10, 2015 /EINPresswire.com/ -- SMI's [Future Armoured Vehicles Survivability 2015](#) conference, taking place on 23-24 November 2015 in London, will provide unrivalled insight into what leading defence nations and their selected OEMS are doing to enhance the safety and security of their troops, through the development of [armour and blast protection](#) solutions. This unique event focusses on the collaboration between military and industry and invites not only capability and operational flag officers to share their lessons learnt from theatre, but also the lead engineers, chief

scientists and technical directors from the vehicle manufacturers themselves, who create the platforms and technologies at the heart of the [armoured vehicle](#).

Speaker Panel includes:

- Major General Aguiar Santos, Mechanised Brigade Commander, Portuguese Army
- Brigadier General Roberto Soria Martinez, Head of Land Systems, Spanish Army
- Brigadier Ben Barry (ret), Senior Fellow Land Warfare, IISS
- Brigadier General Norbert Huber, Director Armament and Procurement, Austrian MoD
- Brigadier Martin Wijnen, Commander of 43 Mechanized Brigade, Royal Netherlands Army
- Colonel Egbert Teeuw, Head of Ground Based Weapons Systems, Netherlands Defence Materiel Organisation
- Lieutenant Colonel Henk Ouwehand, Commander of 45 Mechanized Infantry Battalion, Royal Netherlands Army
- Major Claus Heesakker Johansen, Armoured Vehicles Study and Development Branch, Danish Army Combat and Fire Support Centre (sfc)
- Mr Dan Lindell, Platform Manager, Combat Vehicles, BAE Systems
- Mr Stefan Lischka, Managing Director, ARTEC, KMW & Rheinmetall
