RENO, NV, UNITED STATES, July 27, 2015

/EINPresswire.com/ -- Dan Langston, the author chosen by Akamai Kane (the billionaire cab driver from the small island of Kiki Loa) to write the life story, just released his new book titled *Memoirs of a Billionaire Cab Driver*. The initial version was released in eBook format to speed its release to market and is currently available on Amazon.com, BarnesandNoble.com, and other major book resellers' sites. It is also available at www.billionairecabdriver.com.

Memoirs of a Billionaire Cab Driver consists of the secrets Mr. Kane revealed to Mr. Langston about how he became one of the richest men in the world. The story might surprise you as it explains some very simple truths about how easy it is to achieve all of your financial dreams. The secrets are revealed through illustrations of the same forces occurring in nature as Mr. Kane shows Mr. Langston around his beautiful island of Kiki Loa in an all-day cab drive.

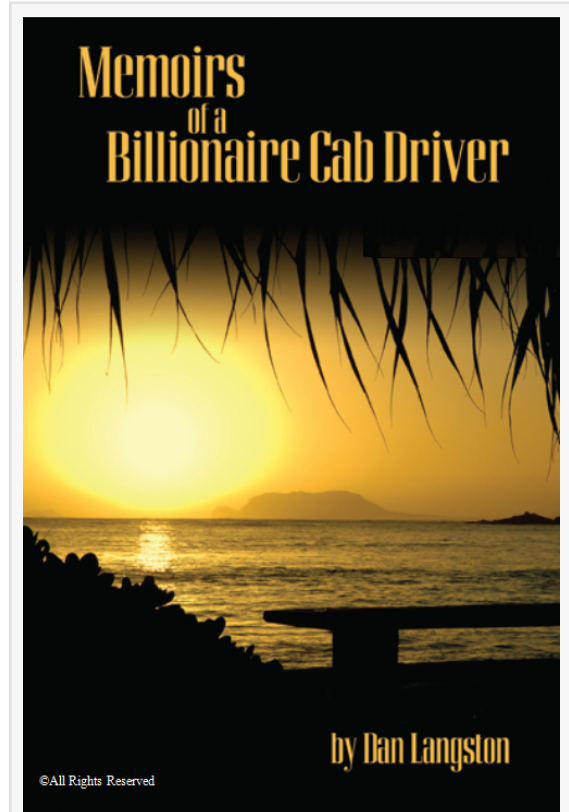

"I never expected to learn as much as I did from Mr. Kane in

such a short period of time", say Dan Langston. "His knowledge is immense and he presented it to me in a linear, easy to understand format with each concept building on the previous. By the end of just one day, I had an excellent grasp of all he wanted me to learn and that will substantially change how I deal with money for the remainder of my life. I am very excited to share this with my readers."

Mr. Kane's secrets revealed in the book show us that most of what we are taught and believe about how money works is in fact just the opposite. He also shows us why there is so much financial failure as people try to build a secure financial future and how to overcome the odds and succeed. Then he reveals an easy, step by step process to achieve anything in life you want, with the sky literally being the limit.

If you missed the story several months ago, on the tiny island of Kiki Loa, a local cab driver named Akamai Kane, wrote a personal check for \$15,000,000 to build a water desalinization plant for his fellow islanders. Following that event, investigations revealed that Mr. Kane to be currently worth over \$20 billion, making him among the wealthiest men in the world.

"*Memoirs of a Billionaire Cab Driver* is a short book of only 114 pages," say Langston, "as I only wanted to tell the story exactly as told to me by Mr. Kane. I truly believe it will shift the financial

paradigm of anyone who reads it.”
