

PowerHealth partners with E-Sehha to bring patient costing and patient billing to Saudi Arabia and Yemen

Australian software vendor PowerHealth Solutions partners with E-Sehha to bring its costing and billing systems to the Kingdom of Saudi Arabia and Yemen.

ADELAIDE, SOUTH AUSTRALIA, AUSTRALIA, August 11, 2015 /EINPresswire.com/ -- Australian healthcare software vendor PowerHealth Solutions has partnered with healthcare technology company E-Sehha to bring its patient costing and patient billing systems to the Kingdom of Saudi Arabia and Yemen.

Healthcare spending in the Middle East is increasing annually due to population growth and governmental efforts to achieve high quality of care. Saudi Arabia is a big spender having launched hundreds of healthcare projects, and is planning to treble the number of state-run beds to 60,000. This region has enormous potential for healthcare efficiency solutions such as PowerHealth's patient costing and patient billing systems.

PowerHealth Solutions is an experienced international vendor with almost 1000 hospital departments using their software worldwide in the United Kingdom, Ireland, Hong Kong, New Zealand, the Middle East and the United States. The company has demonstrated expertise in delivering quality, large scale implementations through the use of developed project management and governance skills.

e-Sehha Executive Director Ali Alkamel said, "We are delighted to partner with PowerHealth Solutions — one of the leading international companies specialising in providing Costing & Revenue, Enterprise Billing and Patient Safety software for hospitals and other healthcare organisations worldwide. Their solutions are highly quality accredited, which will be an added value for both parties as well as the Saudi Arabia and Yemen Market."

PowerHealth Solutions [Managing Director Patrick Power](#) said, "We are delighted to partner with E-Sehha. They have a strong presence in the Saudi Arabia and Yemen, with excellent direct relationships with the local hospitals. E-Sehha is ideally placed to reach our target audience as they are already distributing the 3M code finder and grouper applications, which are very complimentary to PowerHealth's patient costing and patient billing solutions."
