

Trident Group Announces One-of-a-Kind Patented Maritime Boarding Alert Device (MBAD) to Stem Unauthorized Boarding's.

Designed by Former Navy SEALs, MBAD Provides Round-the-Clock Security and Access Denial for Commercial Shipping as well as Gas and Oil Industry Assets

VIRGINIA BEACH, VIRGINIA, UNITED STATES OF AMERICA, August 13, 2015 /EINPresswire.com/ -- Trident Group's introduces the patented [MBAD](#) (Maritime Boarding Alert Device)

Trident Group's new MBAD (Maritime Boarding Alert Device), a non-lethal deterrent, was designed by former Navy SEALs specifically for the maritime environment.

Virginia Beach, Va. (PRWEB) February 19, 2015

Trident Group, a provider of [security and consulting services](#) to many of the world's largest maritime entities, announces the launch of its Maritime Boarding Alert Device, also known as MBAD. An integrated perimeter threat detection and repel platform, MBAD was developed by former Naval Special Warfare operators as a solution against unauthorized access to maritime assets.

Once installed, MBAD is a round-the-clock security system, requiring no crew interaction. When activated by a security breach, the system uses multi-modal sensory overload to impair the intruder's sight and hearing for several minutes while it alerts crew members, giving them the time needed to get the situation under control.

"Maritime crime is a significant threat in many parts of the world," said Thomas Rothrauff, chief executive officer, Trident Group. "MBAD was designed specifically for the maritime environment in response to clients' security concerns that unfettered access to a maritime asset presents. MBAD provides a patented and unique layer of protection not available elsewhere in the industry. The device is a non-lethal deterrent, based on our team's unique maritime security experience, and is applicable in any maritime environment without Flag State restriction."

MBAD features durable marine-grade components with built-in redundancy. Once installed, the system is easy to operate and requires little maintenance. MBAD provides scalable protection accompanied by world-class customer service, including off site "virtual" maintenance and troubleshooting assistance 24/7/365, providing crews peace of mind.

Availability

Trident Group is accepting product orders and requests for asset assessment in order to determine appropriate application levels. To order or find out more, contact Trident Group Operations at (757) 479-4422 or by e-mail to MBAD@gotridentgroup.com (Attention MBAD Orders).

About Trident Group

Founded by U.S. Navy Special Operations Personnel (SEAL's) and Senior U.S. Naval Surface Warfare Officers, Trident Group was established in April 2000 to fill an observed gap in security consulting,

training, technology development and implementation of manpower to the global maritime community. With decades of military and industry related expertise, Trident Group provides unparalleled security services and support to the global maritime industry. Recognized as the market leader in maritime security operations, Trident Group's maritime technology, training and customer service go above and beyond industry standards.
