

\$2 Billion in New Energy Efficiency Funding Available for U.S. Buildings.

E2 Energy Advisors offers new energy efficiency monies available for all types of buildings in the U.S.

DALLAS, TX, UNITED STATES, August 14, 2015 /EINPresswire.com/ -- According to the [US Department of Energy](#) commercial buildings account for about half of the energy consumed in this country and a large amount of the carbon that is released into our atmosphere. Yet studies have shown that continuously monitoring and adjusting building operations and implementing a small number of energy-efficiency strategies could reduce that energy use by as much as 30% and significantly improve our environment.

[E2 Energy Advisors](#) has secured \$2 billion in new energy efficiency funding available for [Energy Savings Agreements](#) for energy efficiency upgrades such as LED lighting upgrades and other efficiency measures

offered by the E2 Energy Advisor group. Efficiency funding is available for investments in energy-saving upgrades that can be widely adopted in airports, commercial buildings, industrial, manufacturing, retail stores, shopping centers, property management groups, REIT's, grocery and supermarkets, restaurants, healthcare and hospitals, hotels and hospitality, municipalities, universities, schools, and more.

The energy efficiency investment funds offer building owners a source of energy investment capital that allow energy efficiency upgrades at no initial project cost that can provide immediate cash flow savings to a building owner. Funding is available for qualified projects for a limited time. To learn more about these efficiency programs email: info@esquaredenergyadvisors.com.

About the Author: Mr. Grosse has more than 30 years of expertise in market leadership initiatives within energy services, healthcare, and financial services within mid-market to Fortune 50 enterprises.
