

Hasegawa-Financial-Holdings.com Launches Alternative Investment Reporting Portal

New Portal Offers Transparency through Innovative Technology

TOKYO, JAPAN, August 21, 2015 /EINPresswire.com/ -- [Hasegawa Financial Holdings](http://www.hasegawa-financial.com) - hasegawa-financial.com today announced the launch of Alternative Investment Reporting, a new interactive portal enabling alternative asset managers across Hedge Fund, Private Equity and Real Estate strategies to view, analyze and extract their

fund administration data from dashboards, workflow tools and reports. This is the latest addition to Hasegawa Financial Holdings - MarketView™, the firm's web-based platform for multiple information, compliance and portfolio management applications.

<http://www.hasegawa-financial-holdings.com/>

This new technology facilitates consolidation of data and generation of reports across alternatives products via a single reporting platform irrespective of fund structure. In addition to the reporting capabilities, the portal includes a comprehensive workflow module which provides clients with the ability to monitor the progress of key operational processes.

Kazuo Satomi, [Global Head of Alternative Investment Services](#) for Hasegawa Financial Holdings, said: "Alternative Investment Reporting is an integral part of our alternatives roadmap as it provides our hedge fund, private equity and real estate clients with a single front-end interface irrespective of fund type. This solution highlights our continued commitment to providing two-way communication and transparency to our fund administration clients."

The key features and benefits include:

- Dashboard - provides access to key summary metrics such as top holdings, top capital flows and workflow status without the need to run a full report.
- Workflow - provides clients with the ability to monitor key operational processes and deliverables such as valuations and capital events.
- Dynamic Reporting - provides clients with a reporting interface enabling efficient real-time access to a comprehensive list of reports in multiple formats and the ability to extract key data.
- Document Repository - provides clients with a centralized storage point for critical documents
