

August Causes Author of 'Buzzards to Butterflies' to Reflect upon Her Existence

Bonnie Russell Clyne has had a challenging life, but one August started a chain of events that seemed insurmountable and many people would have never survived.

LEESBURG, FLORIDA, UNITED STATES, August 27, 2015

/EINPresswire.com/ -- Could you ever imagine losing nearly everything you owned to a hurricane, immediately having your husband killed in a motorcycle accident, what was left of your home emptied and vandalized while you were burying your husband, and then his last and prized possession stolen from you by a man of the cloth? Even the author's later dual battles with cancer were nothing compared to the fall of 1992 in Miami.

[Buzzards to Butterflies](#) is the life story of [Bonnie Russell Clyne](#), RN, CMT, of how she started out in northwestern Illinois at

a children's home, adopted as an infant, and wound up the matriarch of large bubbly family of interesting and diverse characters (certainly due to [Clyne](#)'s dynamic personality). Clyne lost her adoptive mother as a preteen, not even being old enough to understand what was happening or the consequences.

Hurricane Andrew, the Grim Reaper, and desperation were no match for Clyne and her daughters. Even their dog survived the hurricane and burglary of their home and kept the family going. Apparently the burglars did not want her! Each family member grew and learned through the trials they experienced. "When bad things happen in life, you can choose to become bitter or better" is one of Clyne's mottos.

Buzzards to Butterflies takes you through the current events, popular tunes, and artists of the decades from 1953 to this decade. Do you know when Stretch Armstrong was the in toy or when the A-Team was on television? You will after reading this book. Clyne's enjoyable writing style is fun loving, energetic, and often self-deprecating. She interjects time appropriate slang, Spanish idioms, and family jokes.

Clyne started in the healthcare field as a Certified Nursing Assistant, became a Licensed Practical

Nurse, then went on to complete her Registered Nurse degree. Almost 20 years ago, she became a Certified Medical Transcriptionist. She currently lives in Leesburg, Florida, with her three beautiful daughters, Andria, Nikkie, and Rachel.

Buzzards to Butterflies
My memoir and testimony

When bad things happen in our lives, we can choose how to respond, whether we will become bitter or better. Sometimes life isn't fair, but it's filled with learning experiences through which God can teach us what we need to learn in order to serve Him.

Here is living proof that we can survive and overcome childhood traumas, family illnesses and death, personal crises, and natural disasters.
