

# Easy Soft Consolidates Pricing and Products for Added Benefits to Solo and Small Law Practices

*EasySoft Suite, EasyRealEstate Suite, and EasyFamilyLaw Suite now offer law specific legal software solutions bundled in one package for one affordable price.*

NORTH BRUNSWICK, NJ, USA, August 27, 2015 /EINPresswire.com/ -- [Easy Soft](#), a legal software leader for over 30 years, has made it easier for solo and small law firms nationwide to further automate their processes. The legal software company has announced a new pricing model. All standalone products have been bundled into three easy to understand suites: EasySoft Suite, EasyRealEstate Suite, and EasyFamilyLaw Suite.

- EasyRealEstate Suite includes all of the Easy Soft real estate products: EasyCDF, Easy HUD, Real Estate Documents, and Easy Amortization. The suite is fully compliant with the latest industry standards and requirements, including new TILA-RESPA and MISMO compliant requirements.
- EasyFamilyLaw Suite includes all of the company's trusted family law software. State-specific software Case Information Statement, EZSupport-PA and EZSupport-NY increases efficiencies. Nationwide product Divorce Financials allows attorneys to optimize divorce settlement scenarios. In addition, the popular FamilyDocs provides access to over 120 family law forms respectively.
- EasySoft Suite is the company's flagship suite of programs. It includes the full line of products and features available in both the EasyRealEstate Suite and the EasyFamilyLaw Suite.

"Prior to availability of the suites, subscribers purchased each solution individually, which worked out well if they knew exactly what they needed at the time. Feedback was that a modular, tiered pricing model was confusing. The suites eliminate confusion by providing all of the [solutions](#) in a single package for one affordable price," explained [Chris Stock](#), CEO of Easy Soft ([www.easysoft-usa.com](http://www.easysoft-usa.com)).

Family Law Attorneys who are branching out into real estate may, for example, purchase the EasySoft Suite in anticipation of needing the real estate portion of the program. Subscribers download only the solutions they need, but maintain access to the entire suite as long as the subscription is valid.

Easy Soft's solutions are designed for use by solo practitioners and small law firms who want to automate their processes and improve office productivity. The solutions have been designed for easy installation and require no special servers or technical background to install and use. All products are available for immediate download and are supported by free technical support during the duration of the subscription.
