

MSc in Pharmaceutical Medicine

Healthcare Learning is proud to present its latest postgraduate course: MSc in Pharmaceutical Medicine.

LONDON, UNITED KINGDOM, August 28, 2015 /EINPresswire.com/ -- Healthcare Learning is proud to present its latest postgraduate degree programme – MSc in Pharmaceutical Medicine. Originally developed by Hibernia College, in partnership with personnel from the likes of Pfizer, Novartis, Sanofi and Quintiles, Healthcare Learning is delighted to offer this course which has been described as the “Executive MBA of the pharmaceutical industry”.

Systematically covering the drug development process from discovery through research and development to regulatory approval and commercialisation, this innovative programme is suitable for employees within the pharmaceutical, drug development and healthcare industries and will equip them with vital expertise to deal with all aspects of pharmaceutical drug delivery and fast-track their management capabilities.

The MSc in Pharmaceutical is delivered online, through

the engaging, award-winning platforms that Healthcare Learning is synonymous with, with a dedicated team providing support to students to guide them along the course that will equip students with the skills to solve the medical, scientific and economic challenges in the dynamic and constantly changing world of pharmaceutical science, drug development and wider healthcare.

“

This MSc in Pharmaceutical Medicine is specially geared towards pharmaceutical professionals looking to take fast track their careers within the industry.

John Castledine

Dr John Castledine, Head of Education at Healthcare Learning, who was previously Director of Learning & Organisational Development at Pfizer, said: “We are really delighted to have secured this degree. It will be a real asset to add to our expanding portfolio of postgraduate programmes and is very much aligned with our expertise in delivering interactive, cutting-edge learning programmes.

“Healthcare Learning is dedicated to helping those working in the healthcare and pharmaceutical industries on their

professional journeys, and this MSc in Pharmaceutical Medicine is specially geared towards pharmaceutical professionals looking to take fast track their careers within the industry.”
