

New Ebook Contains Fascinating Future Predictions And New Possible Upcoming Technologies.

Which Could Possibly Impact And Change The Way People Do Things Today.

RADCLIFF, KENTUCKY, USA, September 3, 2015 /EINPresswire.com/ -- This new ebook covers many future predictions and technology ideas that could change the world we live in today. It contains information on how a 7th dimensional high definition television and radio receiver would work. Plus it has ideas of how a time traveling hovercraft would work with use of a 7th dimensional coordinates mapping system. Also it includes fascinating stuff about a possible vote in heaven by God that may allow all of us the opportunity to be reborn again in countless levels of universes to relive our current lives over again. This astonishing ebook contains an idea of how heaven is really like. It includes a vast sized number to illustrate how many time space jump bubbles a person in a hovercraft would have to go through to get to their chosen destination. That's not all, it talks about resurrection through time travel and the worldwide subspace collectivity of souls. This book has a chapter titled. "The Galactic Cruise". Which explores different planets and places. At the end of the book there is a special prayer. This book has been positively spiritually

charged by the author that anyone who so shall ever download this book would receive good luck and good things in their life. If interested in this incredible low priced ebook. This ebook is available at many fine online retailers such as Amazon, Barnes & Noble, Itunes, Kobo, Blio , Scribed and some others.
