

Main Line School Night Intro to 3D Printing Back by Popular Demand

This 2 hour course is packed with information on this amazing technology with live demonstrations of popular desktop 3D Printers, CAD Software and 3D Scanning

RADNOR, PENNSYLVANIA, UNITED STATES, September 3, 2015 /EINPresswire.com/ -- On Wednesday, October 15, 2015 from 7:00 PM until 9:00 PM [Main Line School Night](#) will once again present Introduction to 3D Printing led by Ralph Ferro. Mr. Ferro has designed and built 3D Printers and has created hundreds of models and prototypes for himself and [clients](#).

Mr. Ferro will demonstrate the printing process from model creation and design to the actual printing of 3D Models in the classroom.

The course will review the various [3D Printing technologies](#) and their application in industries such as medicine, jewelry, machine parts and others.

Demonstrations of affordable scanning technologies will show how to go from scan of an object or person to a 3D Printed model.

The course is non-technical, includes a lot of discussion and has been attended by people from wood workers to brain surgeons.
