

Merial Sas, GSK, Sanofi Pasteur, Nestle Research Center will meet at the Pharmaceutical Microbiology Conference in London

LONDON, UK, September 7, 2015 /EINPresswire.com/ -- SMi is delighted to announce that the 5th Annual Conference on [Pharmaceutical Microbiology](#) will be taking place on the 20th-21st January 2016 at the Holiday Inn Kensington Forum in London, UK

Microbiological contamination of products and processes continues to be a major concern to the pharmaceutical industry and its regulations. Contamination of an aseptic process can have a serious impact on a company's financial viability, manufacturing license and industry reputation.

Companies and labs are constantly looking for ways to speed up the process of testing (rapid methods) while still ensuring the safety and minimising the risk (risk assessment and management). This is a source of much debate and interest within a field at the moment.

SMi Group announces its 5th annual Pharmaceutical Microbiology Conference will be taking place in London in January 2016. This highly successful event will provide essential insights in to the latest advancements in practice and technology, developments in regulation and harmonisation of international practice and evolving methods and the latest technology.

Registration is now live for SMi's 5th Annual Pharmaceutical Microbiology Conference

SMi Group

Join us as we explore [key issues](#) in data review and analysis, contamination control strategies, strategies for low endotoxin recovery and best practice in sterile and non-sterile manufacture. Hear presentations from the heart of industry, addressing real world case studies on the benefits and

challenges of rapid methods, risk assessments and objectionable organisms.

For more information or to register for this conference please visit: www.pharma-microbiology.com

Benefits of attending Pharmaceutical Microbiology event:

- Gain an in-depth insight into endotoxin testing, validation and LER
- Understand the threats posed by VBNCs and how to detect them
- Hear specialist advice on contamination control and risk management to minimise costs and maximise efficiency

Chairs and Key Speakers:

- Olivier Chancel, Sterility and Aseptic Process Assurance Expert, Merial Sas
- Francesco Boschi, Microbiological Services Manager, GSK Manufacturing S.p.A.

- Thierry Bonnevey, Microbiology Platform Head QC Development, Sanofi Pasteur
- Adrienne Klijn, Group leader Microbiological and Molecular Analytics, Nestle Research Center
- James Drinkwater, Chairman, PHSS
- Tim Eaton, Sterile Manufacturing Specialist, AstraZeneca

For full speaker outline please visit: www.pharma-microbiology.com

Confirmed Sponsors for 2016 – Hyglos GmbH, Lonza Incorporated, Merck Millipore

In addition to the event, there will be two pre-conference [workshops](#) entitled: Endotoxin Testing: Hot Topics and New Methods in the European Pharmacopoeia, presented by Karolina Head Director Marketing & Sales and Holger Grallert, Head of R&D, Hyglos GmbH. And Spectometric and Optical Technologies for Microbial Contamination Control, presented by Andrew Bartko, Research Leader, Battelle, taking place on Tuesday 19th January 2016 at the Holiday Inn Kensington Forum
