

Cut Perfect Miter Joints and Wood Segments with MiterSet

Mancuso Precision Products LLC (www.miterset.com) maker of the precision MiterSet jig announced today the launch of its KickStarter.com crowd funding campaign.

STRAFFORD, NH, US, September 10, 2015 /EINPresswire.com/ -- [MiterSet](#) is a new product category of measurement and layout jigs that combine with a table saw miter gauge to set perfect angles for cutting miter joints and wood segments. The products are made from anodized, laser-etched aluminum and are precision-milled to .001" accuracy. The math for perfect angles is milled into the jig. The user only need slide a miter gauge into the desired position and lock down the angle.

"Our goal is to make it much faster and easier for woodworkers and hobbyists to cut perfect miter joints and wood segments with their existing miter gauge," stated Jack Perry, Owner of Mancuso Precision Products LLC, maker of MiterSet. "Our focus is to make the common miter gauge deliver on its capabilities as an accessory for making highly-accurate table saw cuts with no gaps, no sanding and no wasted material."

MiterSet products are for sale in limited quantities at [miterset.com](#). The company has launched its [KickStarter.com crowd-funding](#) campaign to raise capital for key investments that will drive sales growth and enable interactive customer content that will create lasting affinity to the MiterSet brand.
