

# ECA Global Joins Hands with ACS to offer Graduate Diploma in Information Technology

*Australian Computer Society to provide students with an opportunity to pursue Graduate Diploma in information technology.*

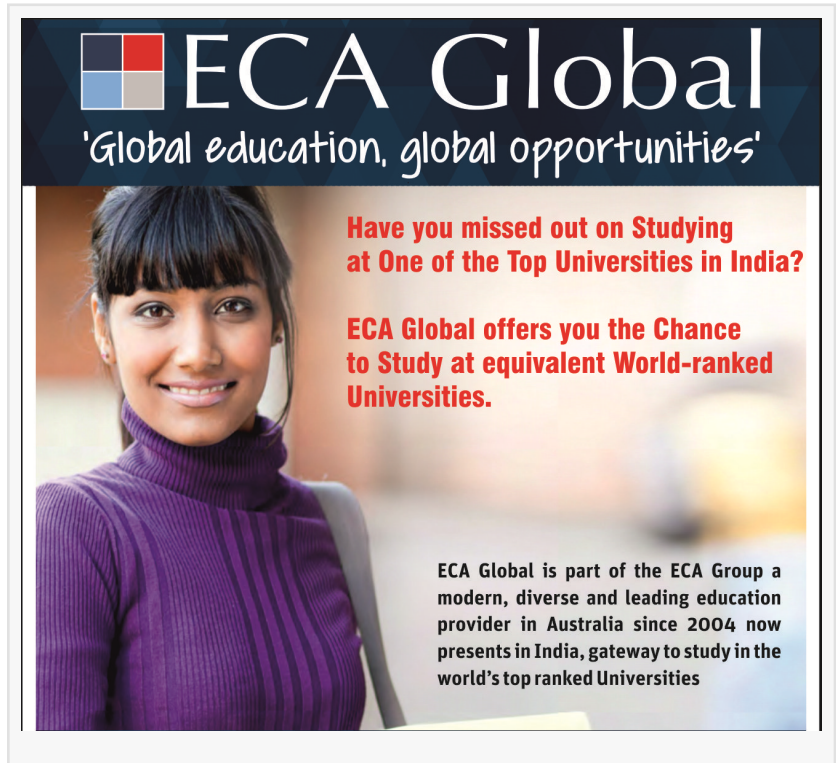

CHANDIGARH, CHANDIGARH, INDIA, September 14, 2015 /EINPresswire.com/ -- With an objective of availing students of educational solutions of global standard, ECA Global has brought about its International University Pathway Program (IUPP) which acts as a bridge for their further education abroad. With its partner in Australia, the Australian Computer Society (ACS), ECA Global offers an online course of Graduate Diploma in Information Technology. Students who aspire to develop skills in this subject through the acquisition of a formal qualification can now enroll in this program, and obtain a pathway to

international higher education in related fields.

This program takes only one year for completion, and applicants have the choice of studying the course in any one of the three available learning periods, each comprising 13 weeks. This qualification especially helps aspirants whose main educational objective is entry into an international college or university, that is, higher education in a foreign country. The curriculum includes integral participation of students in asynchronous events such as discussion forums, and group assignments, which together act as useful learning tools during the entire program. The successful completion of this Diploma of Information Technology online enables students to seek admission in a Bachelor's degree course, of Information Technology or some other related area, at one of the various universities in different parts of the world.

Since these universities are in partnership with ECA Global, a student obtains assured entry into one of these universities after taking any of the programs offered by IUPP. The Graduate Diploma in Information Technology from ACS is an essential program for any student who aims to achieve internationally recognized and accredited qualifications with skills related to Information Technology, and subsequently gain a pathway to further tertiary education in this subject. The currently prevalent and growing multimedia approach to the management and storage of data and information has made it necessary for practitioners of all fields to be well-read in IT.

Keeping this in view, the ACS Diploma of Information Technology online works based on the Skills

**ECA Global**  
*'Global education, global opportunities'*

**Have you missed out on Studying at One of the Top Universities in India?**

**ECA Global offers you the Chance to Study at equivalent World-ranked Universities.**
