

Adam Elements Adds the Popular Rose Gold to Its Innovative iKlips Apple Lightning Flash Drive Series

The iKlips in rose gold was exclusively available with 256GB. Today announced 32/64/128GB will also getting the rose gold and available to preorder.

TAIPEI, TAIWAN, September 14, 2015 /EINPresswire.com/ -- Apple has called, the world answered: "We want a new option of gold." iPhone Fans all around the globe got a new option to select a rose golden iPhone, harmonizing with the Apple watch introduced earlier this year. Envisioning this development, Adam Elements once again delivers cutting edge design by adapting this wonderful color for its highest capacity option of the [iKlips](#) line up. Now everyone opting for the [rose gold](#) iPhone can get the perfectly matching iKlips for never running out of memory again.

Up until now the iKlips in rose gold was exclusively available with the 256GB iKlips. Today we announce that the 32GB, 64GB and 128GB versions will also getting the rose gold variant and you can pre-order them today.

iKlips is an [Apple MFi-certified](#) Lightning flash drive, designed with high-speed premium MLC flash memory. It's fully compatible with all iOS, PC and Mac, making it a breeze to share and backup iPhone and iPad files and increase storage space.

iKlips OTG flash drive series was developed by the Adam Elements team and is exclusively manufactured in Taiwan. iKlips is currently the only high-capacity and premium quality flash drive in the market that uses high-speed MLC flash memory and features exFAT format to support single file transfers over 4GB. It's one of the world's fastest flash drive for the iPhone and iPad (Read/Write Speed: Lightning-26/10 MB/s; USB 3.0-140/70 MB/s). Thanks to its sophisticated energy-efficient design, using iKlips has absolutely zero effect on the battery life of an iPhone or iPad.

iKlips consists of a dual-interface integrated design with full Apple Lightning and USB 3.0 compatibility, allowing users to conveniently share and transfer files between an iPhone, iPad, PC and Mac. Through the free iKlips iOS App, you can instantly store and backup valuable photos, videos and data from the iPhone and iPad onto iKlips and transfer them to your home computer. iKlips files and folders can be directly managed on the device. Now, iKlips is available in five colors (silver/space grey/red/gold/rose gold) and five capacity from 16GB to 256GB (MSRP: USD59-USD399).
