

Key considerations in energy from waste addressed by industry experts at 8th annual congress

ENERGY FROM WASTE 2015 takes place on 7th & 8th December 2015 at the Holiday Inn Regents Park, London UK

LONDON, ENGLAND, UNITED KINGDOM, September 15, 2015 /EINPresswire.com/ -- Some of the most senior industry experts in resource efficiency and waste management will gather this December to discuss the latest developments in [Energy from Waste](#) when SMI's 8th annual show returns to London.

With current thoughts in the EFW market reflecting on the impact of the EU circular economy package; increase of merchant funded projects; and technological breakthroughs, the two day agenda will address questions such as:

- What regulatory changes can we expect from the EU and how can the EFW

sector adapt?

- How can energy from waste continue to play a role in the circular economy and what are the most important targets to be aware of?
- Are combustion plants the best option available?

Looking forward to the two sessions on technology. We have plans for expanding our capacity and technology selection is going to be key...
