

THE SHANGHAI PROSTHODONTICS SYMPOSIUM RETURNS TO DENTECH CHINA 2015

International Gathering of Prosthodontics Experts to Highlight The 19th China International Exhibition & Symposium on Dental Equipment, Technology & Products

SHANGHAI, SHANGHAI, CHINA, September 23, 2015 /EINPresswire.com/ -- Shanghai, China --UBM ShowStar part of UBM Asia—the largest trade exhibition organizer in Asia and Mainland China--and the Shanghai Ninth People's Hospital will gather international prosthodontics experts to convene at the 19th edition of DenTech China--China's leading professional event for the

dentistry technology industry held at the Shanghai [Prosthodontics Symposium](#) 2015, October 21-22. This one and a half day conference is a highlight event open to all professional attendees free of charge as part of [DenTech China 2015](#) which takes place 21- 24 October at the Shanghai World Expo Exhibition and Convention Centre, Shanghai China.

The Shanghai Prosthodontics Symposium 2015 is just one educational component to DenTech China's 19th China International Exhibition & Symposium on Dental Equipment, Technology & Products which will hosts over 200 sessions for dental professionals. The Prosthodontics Symposium 2015 will be conducted in English with concurrent translation in Chinese. The second edition of this highly anticipated platform for the prosthodontics industry includes an international lineup of experts including Dr. David Bartlett of The MClint Dent at Kings College London Dental Institute who will discuss the fundamentals of occlusion and then explain how things change when dealing with tooth wear in his session "Practical occlusion" a simple concept?" Dr. Sreenivas Koka of Loma Linda University UCLA Schools of Dentist will discuss "What are the really important ingredients in the recipe for successful implant treatment?" whereas in his session, Dr. Homa H. Zadeh of the USC Ostrow School of Dentistry will cover Peri-implant diseases: current state-of-the-science of the diagnosis and therapeutics available for peri-implant diseases. Additional renown speakers include: Dr.Jürgen Wahlmann of Aesthetic Restorations in University of Seville, Spain, Dr. Brian Fitzpatrick of University of Queensland, and Dr. Jung-Suk Han of the School of Dentistry at Seoul National University who will present "Clinical Applications of Zirconia in Dentistry: Zirconia for the Implant & Fixed Dental Prostheses."

"With the advancements of Prosthodontics in China in last so many years in terms of consumer interest and China's participation as full product or component suppliers, the Shanghai Prosthodontics

Symposium 2015 makes for a timely addition to DenTech China 2015,” says Grant Chen, UBM ShowStar General Manager and organizer of DenTech China. “Our dentists and business partners are eager to learn more about different applications and techniques of this field currently in practice worldwide.”

The Shanghai Prosthodontics Symposium 2015 takes place at DenTech China-- China’s leading professional event for the dentistry technology industry. As the pioneer event of its kind with the inaugural event commencing in 1994, DenTech China has since grown 19 years in experience in organizing the must-attend conference for dentists seeking continued accredited education as well as international buyers, traders, and distributors looking to source high-quality and costs efficient products and equipment produced in China and throughout Asia including product categories such as imaging systems, orthodontics, implants, serialization devices, Dental CAD/CAM, implant material and more.
