

# Daily Yoga 6.0 Released with Brand-New Layout and Awesome Features

*Daily Yoga is updated with a whole new look and layout for a more pleasant and better yoga practice experience*

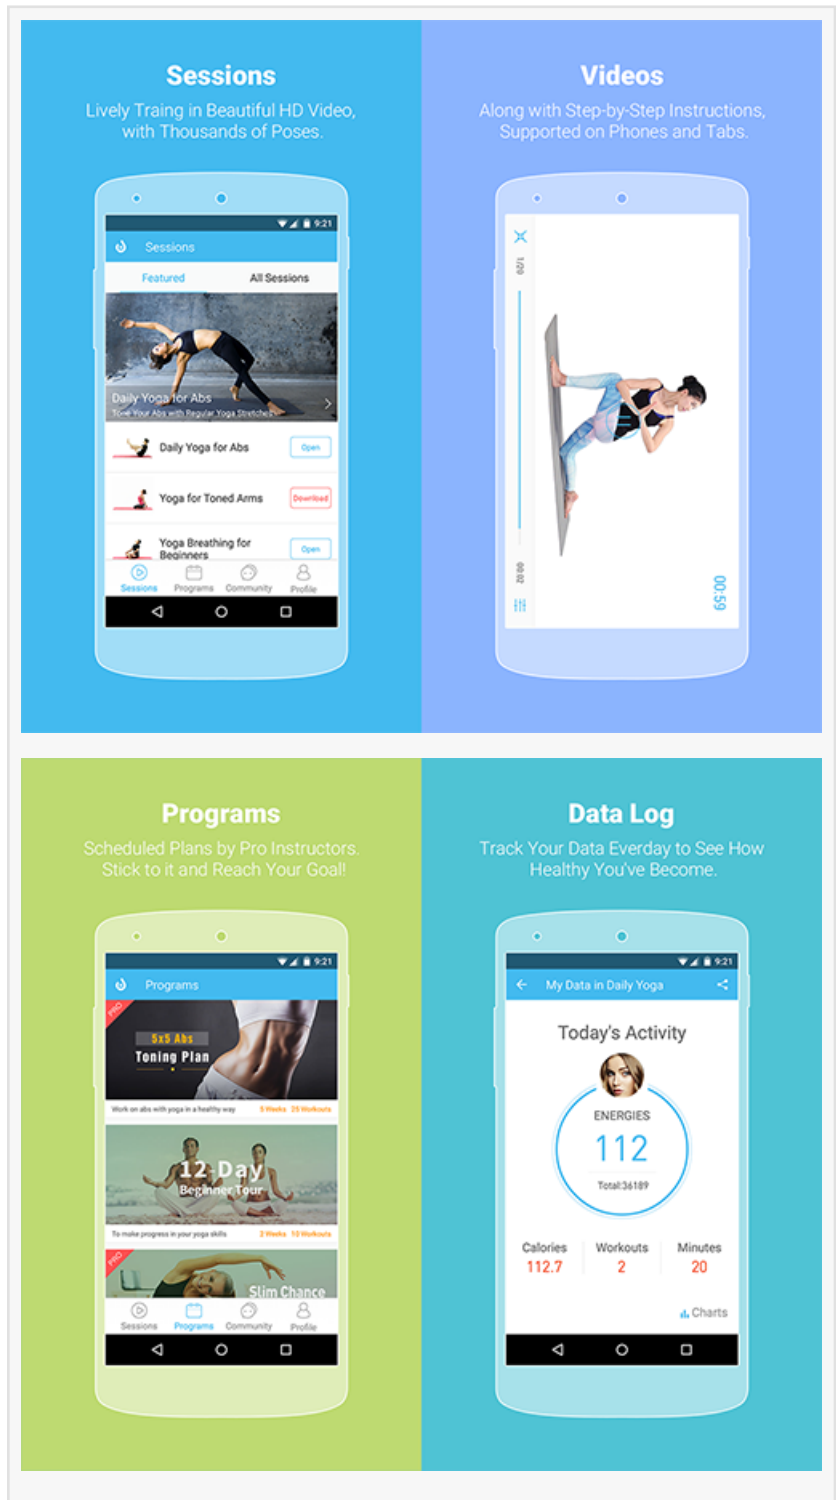

XIAN, SHAANXI, \_\_, September 23, 2015 /EINPresswire.com/ -- [Daily Yoga Inc.](#), the most popular [fitness & health app](#) developer, just announced an updated version of its flagship application Daily Yoga in Google Play Store bringing it to version 6.0. The update was revamped with a whole new look and layout for a more pleasant and better yoga practice experience.

Daily Yoga is the NO.1 downloading yoga coaching app. There are more than 50 yoga classes and 500 plus workout poses, complete with HD video, live voice guide and background music.

This app is suitable for all levels with a variety of exercise focuses. All the yoga classes and programs were well designed by experienced yoga masters, of whom each of them has at least 16 years teaching experience. And the developer continues to add new yoga classes every month. As the name suggests, this app helps you easily fit yoga into your routine every day. Even if you have only 5 minutes, you can still find a session in Daily [Yoga app](#) and reap the benefits of yoga. Daily Yoga has also built a great community, in which users can share their moments and get inspired from other yogis.

The biggest change to Daily Yoga is the interface design. It looks like the new version is simpler and much more finger-friendly; plus there is a renewed focus on

the “yoga program” list with appealing images, specifically making it easier to focus on the exercise

sets. Aside from the beautiful look, the app adds a batch of new features; the most important one is the “Data Log” which allows users easily to keep the track of activities and to see how healthy they’ve become by simply tapping the “Energies” in their profile.

All in all, the new update is going to be a epic. It will be a great news for all the yogis and health-curious people. Daily yoga 6.0 for Android is rolling out on the Google Play Store, and you should be able to download it now for free:
