

The New and Clever 'Total Solution' for Business Communications

Cube telecom.co.uk has recently unveiled its clever and unique online solution called "Total Solution".

BURNHAM, BUCKINGHAMSHIRE, UK, September 23, 2015 /EINPresswire.com/ -- Total Solution takes into consideration all the Telecom's needs of a business including mobile, hosted telephony (Phone System), data connectivity and unlimited calls, SMS and data.

“

There is now another way of ordering and maintaining all the telecommunications of a company – of any size. This new service is unbelievably easy and is accessible for companies of all sizes.

Dave Breith

The proposition offers all the telecoms a business needs in just [one bundle for a fixed monthly fee](#). There are no upfront costs and Cube is even offering cashback to users to encourage migration to their new service.

Dave Breith, Cube CEO, comments

“There is now another way of ordering and maintaining all the telecommunications of a company – of any size. Having to

deal with more than 3 suppliers is not an efficient use of company time and the frustration of being passed around different departments is something we have all experienced. This new service is unbelievably easy and is accessible for companies of all sizes.

The secret behind this new way of taking bundles to market is our custom built portal that calculates cost and usage requirements by just asking a few simple questions. We are so sure customers will be delighted with this new way of procuring their communication solutions, we are offering a satisfaction guarantee so that customers only pay when they are 100% happy with our service”.

Cube provides a [mobile, broadband and hosted phone](#) system package from just one supplier and offers bundle sharing savings that are spread across mobile and fixed line. Cube is the first ever company in the World to offer such a service. The bundled package includes unlimited UK mobile calls, landline calls and data - regardless of the device used. As the bundle is from just one supplier, considerable cost savings are passed to the end-user as there is no longer the need to pay for a bundle on mobile and fixed line separately.

Flexibility is key to any business as no one wants to be tied to a contract that is hard to change as a company grows but equally no one wants to pay for a service that they may or may not need in the future. With Total Solution businesses are able to upgrade from as little as 6 months into the contract so growth or the ability to get the latest handsets is not hindered.

The whole customer journey is online from the initial instant quote and price comparison through to future system upgrades. Anyone can see how low their monthly telco costs could be by simply answering a few simple and easy questions. A price comparison comes up as well demonstrating how cubetelecom.co.uk compares to all the major companies. There is also a cashback offer that will be paid to anyone that signs up and is paid before their first monthly invoice is paid.

A professional site survey, installation and training is also given as part of the service ensuring that

cubetelecom.co.uk customers benefit from state of the art services offered. Total Solution is a simple and unique way of arranging a company's communication requirements and maintaining a business grade service with outstanding SLAs.

Businesses have never been able to enjoy ordering and managing their telecom needs online in this way. It is totally game changing and the way that businesses will order and manage their telecoms now and in the future.

[Total Solution by Cube Telecom](#) is now available to order in just three easy steps. A quotation and price comparison can be provided instantly by visiting www.cubetelecom.co.uk
