The RightView application will be available on marketplace.adp.com beginning October 2015

HAZLET, NEW JERSEY, USA, September 24, 2015 /EINPresswire.com/ -- [RightFit](#), a Comrise company, today announced the availability of its search visualization app [RightView](#) for download on the ADP® Marketplace. RightView helps companies source more hires from their Applicant Tracking System (ATS).

RightFit joins an ever-growing lineup of critical HCM and business applications that enable employers to optimize decision-making by seamlessly integrating applicant data through secure ADP application programming interfaces (APIs).

"On behalf of RightFit, we're thrilled to join the [ADP Marketplace](#) and provide ADP customers the ability to further leverage the applicants and data in their ATS using RightView," said Rob Bigini, VP of Product at RightFit. "RightView's interactive clusters are empowering talent acquisition and sourcing teams across the globe to gain insights about the applicants that exist within their ATS, and ultimately allows them to source more hires from the ATS."

ADP Marketplace is a new cloud-based app store designed to help employers dynamically manage an ecosystem of enterprise applications from ADP and world-class partners. This enables companies of all sizes to extend the value of their workforce solutions seamlessly across their entire organizations via a secure, single-sign-on process.
