

ShipCritical Offers Sensitive Equipment Shipping Services

Medical Shipping Company Offers Advantages Few Other Providers Can

NAPLES, FL, USA, September 30, 2015 /EINPresswire.com/ -- Today's shipping market means dozens of choices for healthcare organizations today, but not all of them are amazing. While some claim to offer white glove services, only [ShipCritical](#) offers complete monitoring and technological innovations that displace traditional shippers.

The Clear Advantages

[Sensitive equipment shipping](#) is just that for a reason. When shipping biologics, often simple problems like temperature changes and shipping stress call into question the long term viability and functionality of the biologics themselves. ShipCritical, though, has a deep understanding of the potential for problems, so they not only take every possible precaution, but do so with great speed to ensure everything is exactly where it should be at the perfect time.

"To be the best in an industry like this one, you have to consider scheduling, special requirements, and budgets, and we do all three. We've developed a compliant solution that replaces any big name brand's white glove services and pricey alternatives," said Joe Pavone, President and Founder.

Some of the highlights of ShipCritical's services include a variety of delivery options, better handling practices no matter what the cargo, and dedicated teams that understand this aspect of the shipping industry in a way few other companies can.

Giving Healthcare Companies A Powerful Advantage

The world of healthcare is becoming increasingly crowded, but ShipCritical ensures both large and small companies can get the competitive advantage they need now. From the fastest possible shipping services to ensuring the entire process is reliable and cost-effective, ShipCritical addresses the most common difficulties companies face today.

"Protecting the shipment is clearly our priority, but healthcare is very much a business, so we balance that with ways to help maximize our clients' transportation budgets and additional services to ensure every aspect of your company is covered," said Pavone.

Make certain your "White Glove" shipping services are all they're advertised to be. Move your shipping department forward with the help of ShipCritical's [sensitive shipping services](#).
