

# BERRY AMOUR VILLAS IN BALI, INDONESIA GIVES WEBSITE NEW FACELIFT

*Berry Amour Villas in Bali, Indonesia recently gave its website an upgrade to make the online experience better for potential visitors.*

BALI, BALI, INDONESIA, October 7, 2015 /EINPresswire.com/ -- FOR IMMEDIATE RELEASE

[BERRY AMOUR VILLAS](http://www.berryamourvillas.com) recently gave its website, <http://www.berryamourvillas.com>, a new upgrade and redesign to make the online experience better for old fans and potential bookers.

Frequent visitors of the site will immediately notice the new red template and a well-produced introduction video on the welcome page. Inside, there's a new template highlighting the villas, promos, facilities, location, and contact details as well as links to the hotel's official blog and guest reviews. Then there's an awesome rolling banner containing hi-res images of the facade, courtyards, swimming pool, lounge area, and of course, the famous romantic villas.

Another noticeable addition to the website is the call-to-action button for

online booking. This version is more prominent than the one used a few years ago. It also has fields for the promo code and the desired stay dates, plus a 'modify or cancel reservation' option below. One more great addition to the homepage is the section dedicated to the special offers – which makes reservations extra easy for less-savvy users. This new website is also mobile-adaptive, perfect for smart phone and tablet users.

As for the Internet Booking Engine, Berry Amour Villas retained the trusty and reliable interface that they have been using for years. To launch the reservation system, guests have to click the “BOOK NOW” button, input their travel dates on the calendar, and select an accommodation. Particulars about room amenities, booking policies, and ongoing promos are also detailed here.

Powered by DirectWithHotels, the direct-booking engine of this hotel in Bali is secured by DigiCert and Trustwave, 2 of the most trusted security providers on the web today. A prepayment amounting to the room cost of the first night is required to secure a reservation. Once the system has successfully processed the transaction, the room will be automatically registered under the guest's name. The balance, if there's any, is still payable at the hotel upon check-in.
