

# Collision Diagnostic Services Expands And Opens New Headquarters

*Collision Diagnostic Services, creators of the AsTech remote diagnostic device, opened its new headquarters today in Plano, Texas.*

PLANO, TEXAS, USA, October 7, 2015 /EINPresswire.com/ -- [Collision Diagnostic Services](#), creators of the AsTech remote diagnostic device, opened its new headquarters today in Plano, Texas. The 9,000 square foot state-of-the-art facility features a dedicated training and research area

along with space for an additional 60 master technicians. The new space, which will operate in addition to the Company's existing office in Jacksonville, Florida, will allow for expansion as the Company gears up for the release of the next generation asTech™ scanning and diagnostic device.

Doug Kelly, CEO of [CDS](#) said "We are excited to set up shop in the heart of the Dallas Fort Worth Metroplex, home to some very large automotive companies." Kelly added "having 2 climate controlled drive-in bays for research and development, customer presentations and training will significantly improve our ability to stay ahead of the every changing automobile."

MEDIA NOTE: This is only an address change - phone numbers, emails and the corporate website address will not change.

Here is how to reach CDS:

CDS  
600 Development Drive  
Suite 100  
Plano, TX 75074

## About CDS

Collision Diagnostic Services, (CDS), founded in 2010, is the leading provider of remote diagnostic solutions and services to the collision industry. With more than 150 years of experience in the automotive electronics and collision industries, CDS provides cutting-edge, expert diagnostics using OEM tools to provide safe and accurate repairs. CDS provides remote diagnostics using its [patented Astech device](#) and also provides access to ASE-Certified Master Technicians, who are trained to be virtual diagnosticians. CDS Master Technicians can service many trouble codes remotely and provide real-time assistance to shop technicians at the vehicle when needed.
