

IPC Eagle to Preview 2016 their Better Solutions for Every Surface at Upcoming ISSA/InterClean® North America 2015 Show

IPC Eagle Booth #2285 'Better Solutions for Every Surface' to include product displays, demos, and preview of latest technology innovations.

TWIN CITIES, MINNESOTA, UNITED STATES, September 21, 2015
/EINPresswire.com/ -- TWIN CITIES-- (BUSINESS WIRE)--Oct. 21-23, 2015--
[IPC Eagle](#) Corporation a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world is set to unveil new technologies, described by the company as the "Better Solution for Every Surface," the theme for IPC Eagle's [ISSA](#) booth.

"Innovative" technologies include the next generation of IPC Eagle Corporation's successful [CT80's](#), the real revolution in floor cleaning
CT80 ride-on scrubber with Advanced Productivity control is the first of a wave of innovative products to come in 2016.

Designed and developed by a team of specialists to revolutionize floor scrubbing, the CT80 automatic scrubber is the first machine to be equipped with an "Advanced Productivity control" device, the first water control system that enables precise and constant water flow from start to finish and algorithms that provide instant visual feedback of remaining time and area to be cleaned.

CT80 is the result of IPC firm commitment to the research of an environmentally sustainable technology: its lower maintenance costs and higher components reliability make it a long lasting machine.

Silent, compact and extremely easy to move, this small automatic scrubber, equipped with its small turning radius, is able to reach even the most external corners, doubling your
