

# LectureMonkey announces version 6 - Interactive Lecture Capture and Active Classroom Solution for Everyone

*LectureMonkey is not only dramatically cheaper than traditional lecture capture and active classroom systems - it is also more advanced.*

HALLANDALE, FL, UNITED STATES, October 22, 2015 /EINPresswire.com/ -- [LectureMonkey](#) version 6 for the Apple iPhone is now available for free in the app store. LectureMonkey self-service mobile lecture capture and active classroom is an academic game changer, making it easy for students and faculty to collaboratively record, take notes and share any lecture for later review. LectureMonkey is the world's only infrastructure-free low cost, high quality universal lecture capturing, active

learning and note taking platform for students and faculty which requires no IT investment by relying on existing smartphones and the cloud.

LectureMonkey has lowered the barrier to active classrooms by making pervasive lecture capture and interactive classrooms available to everyone. LectureMonkey's self-service, no IT approach puts lecture capture and active classrooms in everyone's reach. LectureMonkey is not only dramatically cheaper than traditional lecture capture and active classroom systems - it is also more advanced.

LectureMonkey version 6 has added even more features for anywhere lecture capture, making it a must have tool for educators and students everywhere:

- Multiple capture modes making it appropriate for any classroom setting:
  - o Automatic recording – just set the phone down and let LectureMonkey do the rest.
  - o Collaborative shared capture – the class decides which images to capture, distribute and share.
  - o Direct slide capture – use an existing Adobe® PDF or Microsoft® PPTX.
- Attendance tracking of everyone collaborating during the lecture.
- Transform captured lectures to video with comments
  - o Optional upload to your own private, unlisted or public YouTube® channel.
  - o YouTube® videos include interactive links to comments and images.

- Powerful, easy to use lecture editing, including the ability to automatically match and swap images with an Adobe® PDF or Microsoft® PPTX slide file of the lecture.
- Collaborative, attributed class comments that encouraging peer learning.

LectureMonkey is a unique combination of collaborative lecture capture (high quality audio, images, and presentation slides) and shared comments, merging them into a crowd sourced, shared, multimedia summary of a class. LectureMonkey uses powerful computer vision techniques and audio post processing to ensure the quality of the capture.

LectureMonkey version 6 is now available for free in the Apple appstore (<https://itunes.apple.com/il/app/lecturemonkey-lecture-recording/id547592845?mt=8>) and on the web (<http://www.lecturemonkey.com/>).

Our mission is to be every class' automated note taker and lecture capture system that makes it easy to capture every lecture, anywhere, anytime - while enhancing the lecture experience for both faculty and students.
