

10 Ways to get Your Home Sparkling Clean With Lemon Juice

With Halloween, Thanksgiving and Christmas approaching you'll be getting your house in tip top shape for all those guests popping in.

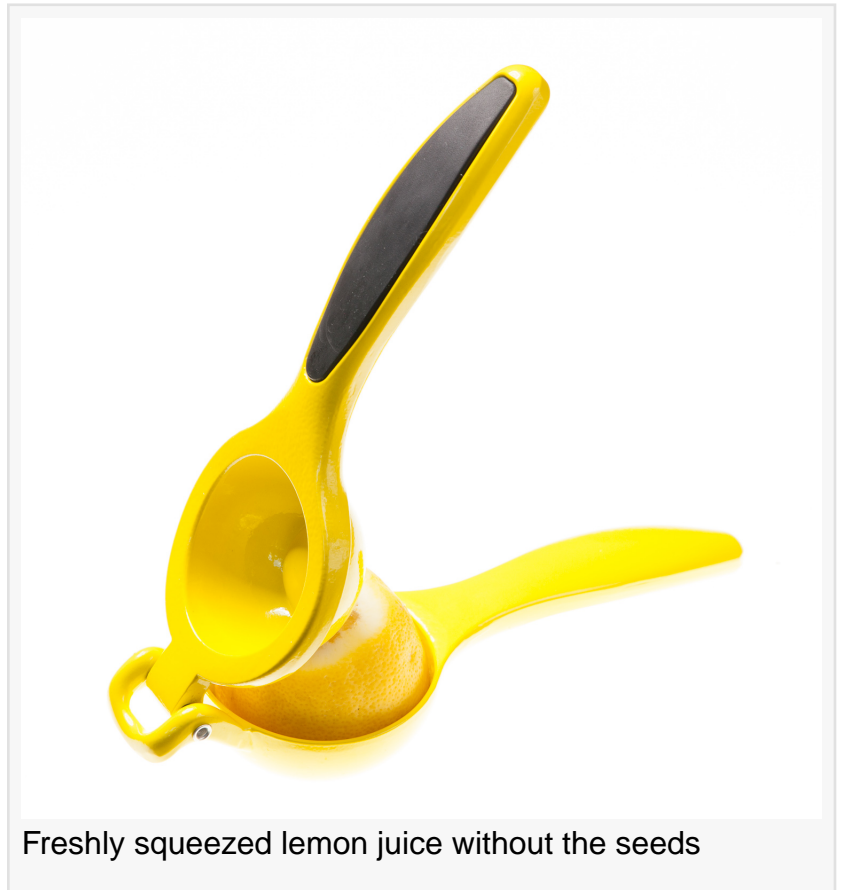

TEMPLE CITY, CALIFORNIA, USA, October 13, 2015 /EINPresswire.com/ -- With Halloween, Thanksgiving and Christmas approaching you'll be getting your house in tip top shape for all those guests popping in.

To make this busy time as easy as possible for you the [Kitchen Bitz Lemon & Lime Squeezer](#) team have come up with 10 ways of getting your home sparkling clean using that fantastic natural ingredient – lemon juice!

- Get rid of that suspect smell in your fridge - add some lemon juice to a sponge, pop it in the fridge and leave it for a few hours or overnight. You won't be ashamed to open that fridge door

when your guests arrive.

- Microwave looking a bit grubby with left-over food stains? Add some lemon juice to a bowl of water and microwave for 3 minutes. The stains will be easy to wipe away.
- A few drops of lemon juice added to your vacuum cleaner bag before use will give your home a lovely lemony fresh smell.
- Got an insect problem? Spray lemon juice on windowsills, door thresholds or any cracks where insects might get in. Apparently they don't like the smell.
- There's nothing more irritating than hard-to-shift marks on shower doors, mirrors and windows. A little lemon juice on a sponge will shift them quick.
- For a natural furniture polish mix one cup of olive oil with half a cup of lemon juice. Add a little to your cleaning cloth and polish away.
- If your bathroom grout is looking a bit dirty, grab some lemon juice and a toothbrush and scrub it

clean.

- You can also scrub your toilet clean after adding half a cup of Borax to the toilet bowl with a squirt of lemon juice right on top of it.
- If you're cooking lots of tasty treats for your guests your chopping board may have more stains than you'd like! Rub the board with lemon juice, leave a couple of hours then rinse.
- After all that running around cooking and getting your house clean, and getting sweaty, you'll want to get rid of those underarm stains from your clothes – pour some lemon juice on them, add some salt, then rub and rinse.

To make life even easier the Kitchen Bitz Lemon & Lime Squeezer can help you make bottles of lemon juice quickly and without lots of mess. Just roll the lemon on the counter top for a few seconds, cut in half and place half a lemon flesh side down in the Squeezer, press the handy rubber grip handles together and catch all that lovely [freshly squeezed lemon juice](#), without the seeds, in a bowl. Pour into a bottle and hey presto, you're ready to clean.
