

Andhra Pradesh Gas Distribution Corporation (APGDC) to build Floating LNG terminal in Kakinada

Floating LNG will assess LNG market dynamics and economics, technology innovations, case studies plus project finance and risks associated within this industry.

LONDON, ENGLAND, UNITED KINGDOM, October 21, 2015

/EINPresswire.com/ -- The first [Liquid Natural Gas \(LNG\)](#) terminal on the east coast of India will be built in Andhra Pradesh. The Andhra Pradesh Gas Distribution Corporation (APGDC), Gas Authority of India Limited (GAIL), GDF Suez and Shell, signed two MoUs to set up a [Floating LNG](#) terminal at Kakinada deep water port. The first Memorandum of Understanding (MoU) set up a terminal company between APGDC, GDF Suez and Shell. The APGDC, a joint venture company of Andhra Pradesh government and GAIL, GDF Suez and Shell will have 48%, 26% and

26% equity in the project respectively. The second MoU is to set up a trading company and covers both the sourcing of LNG and the marketing of the regasified LNG from the terminal, with the same equity represented in the trading company as well.
