

Deans Has Installed All Weather Commercial Awning for the Road Trip & the Workshop

A roadside pub/bar gets new commercial awnings from a quality awnings manufacturer.

LONDON, UNITED KINGDOM, October 22, 2015 /EINPresswire.com/ -- Awnings and blinds manufacturer, Deans Blinds and Awnings UK, had fitted a [Pratic](#) All Weather commercial awning to a roadside pub/bar called Road Trip & the Workshop whose owner felt this would be ideal for his own establishment.

When Deans arrived to site survey, the Road Trip & the Workshop already had 3 awnings fitted that were in a pretty poor state mainly due to the fact that strong winds tended to blow straight into its outside eating area which caused him loss of business when the weather was poor.

The owner wanted something that would keep his customers happy and now Deans have completed fitting of the Pratic. The owner was delighted. with the results and already this weekend it has been used by his customers. All in all, another satisfactory fitting by the Deans fitting teams.

Deans are the main installer/distributor of the Pratic all-weather commercial awnings systems in the UK. The Pratic portfolio includes timber and aluminium wall mounted structures with flexible retractable roofs and also a range of free standing systems which have retractable fabric or PVC roofs or can be installed with =turning vane aluminium slats which allows sun to be controlled over the whole system. These systems can be used all year round and are suitable in inclement weather conditions excluding snow and the wind resistance varies from 7 up to 10 on the Beaufort scale - almost gale force.

Side screens, lighting and heating can be added if required - most of the systems information is available at the Deans web page at <http://www.deansblinds.co.uk/catalogue/product/2/10/pratic-all-weather-rainproof-windproof-commercial-awning/>.
