

New ISO Project Initiation Documentation Toolkit gets ISO management system projects off to the best start

IT Governance has added a new product to its web store: the ISO Project Initiation Documentation (PID) Toolkit.

ELY, ENGLAND, October 26, 2015 /EINPresswire.com/ -- IT Governance, the leading global provider of information security products and services, has added a new product to its web store: the ISO [Project Initiation Documentation \(PID\) Toolkit](#).

The ideal starting point for any ISO management system standard implementation, the ISO Project Initiation Documentation Toolkit enables project owners to identify the necessary steps in any ISO management system implementation.

The toolkit is designed to help establish a strong foundation for ISO projects before seeking board-level commitment. Available for immediate download, the ISO Project Initiation Documentation Toolkit contains procedures and tools that will accelerate the management buy-in process:

- Project initiation document (PID)
- Project objectives
- Project plan work instruction
- Project plan template
- Project risk register

The [ISO PID Toolkit](#) will enable project owners to:

- Define their ISO project
- Easily set out a full project plan before seeking board commitment
- Identify the resources needed and establish project costs early, allowing more effective budget management
- Ensure their project's success by establishing the information they need before they start

For more information about the ISO Project Initiation Documentation (PID) Toolkit, visit IT Governance's webshop:
