

KETTLER USA Launches New Gymnic Line

New Gymnic line provides motor skill development and fun for children and strength training, balance and fitness for adults.

VIRGINIA BEACH, VIRGINIA, USA, November 17, 2015 /EINPresswire.com/ -- [KETTLER USA](http://www.kettlerusa.com) introduces new Gymnic line for children and adults. Gymnic features a variety of children's toys that integrate play and fitness including Rody, Gyffy and Hop balls. [The Gymnic physiotherapy](#), fitness and well-fit line for adults provide a variety of beneficial exercise and therapeutic uses.

Gymnic's Rody, Gyffy, Raffy and hop balls help develop balance, movement skills and coordination. The Rody horse offers fun and valuable support for body movement. It helps improve your child's trunk, legs and arms muscles. It has been adopted in many nursery schools as a psychomotor tool and by therapists to enhance language, memory and perception skills. However, it is mainly a relaxing toy that provides entertainment and stimulates group activities. Since being introduced in 1984, Rody has been appreciated by children because of its rounded design, resiliency and softness.

The Hop Balls are a dynamic toy which fosters children's coordination and balance, by combining amusement and healthy motor activity. The grip safety is provided by the soft one-piece handle, which is manufactured in the same material as the ball. The Hop balls can also be included in motor activity plans for engaging and innovative exercises, thanks to the use of the handle.

The Gymnic physiotherapy, fitness and well-fit products offer valuable support, help strengthen and maintain motor activities and make exercising fun! The fitness ball is an ideal tool to foster recovery from neurological and orthopedic pathologies, a valuable support in treating muscular dystrophy and for rehabilitation and analgesic gymnastic. Gymnic offers many other benefits, such as improving balance, stability and correct posture.

We are excited about the addition of the Gymnic line to KETTLER USA. From Rody to the Fitness inflatables, KETTLER values of exercise and fun are reinforced in a new, creative way," said Stephen Mannix, of KETTLER USA.
