

# PowerHealth expands Ireland Office to position for new global growth

*Healthcare developer PowerHealth Solutions boosts European office to tackle global business growth as business booms in Europe, the Middle East and Canada.*

ADELAIDE, SOUTH AUSTRALIA, AUSTRALIA, November 24, 2015 /EINPresswire.com/ -- Healthcare developer PowerHealth Solutions is boosting their European office in Ireland to tackle global business growth as business booms in Europe, the Middle East and Canada.

PowerHealth Solutions' patient costing and enterprise billing system have proven success at efficiency improvements throughout their customer base of 1,000 hospital departments. The company is in high demand as the healthcare industry worldwide is undergoing reform to contain costs while meeting increasing demands (see Deloitte health report).

Since the opening their Ireland Office in 2012, business in Europe has boomed, including a nationwide rollout this year of their Patient Level Costing system across all public hospitals in a European country. Strong interest from the Middle East has prompted four new Middle Eastern business partnerships — with Superior Business Solutions, Evosys, OCSHI Solutions & Services, e-Sehha —

which extends access to the United Arab Emirates, Saudi Arabia, Yemen, Bahrain, Oman, Kuwait, Qatar, and Egypt. Additionally, interest from Canada has led to a business partnership to extend the company's reach in North America.

PowerHealth Solutions has commenced a recruiting drive in Ireland and moved in to larger premises with the expectation of significant future growth, in a strategic move to build their global coverage.

PowerHealth expands Ireland Office to position for new global growth

Patrick Power, Managing Director, PowerHealth Solutions

Managing Director [Patrick Power](#) who is primed with business ideas from Harvard Business School's Owner/President Management Program said, "Healthcare is a growing business, and within healthcare there are three major drivers: access to healthcare, quality of healthcare and cost of healthcare. These are the three areas that we specialise in. We're profitable with no debt or external funding whatsoever. A suite of products that's the latest technology and close to 1000 hospitals as clients. What Harvard has taught me is that that's a platform that should enable us to really grow very quickly now."

PowerHealth Solutions European Director Nigel Michell said, "The Ireland Office is ideally positioned to extend PowerHealth's global support. The timezone difference extends the PowerHealth Solutions ability to service

Nigel Michell, European Director, PowerHealth Solutions

global clients 24x7 as our day starts just the Australian day finishes."
