

Agenda Released for Pre-Filled Syringes East Coast 2016

SMi Group is delighted to announce that an agenda has now been released for its 3rd annual conference and exhibition 'Pre-Filled Syringes East Coast'

ISELIN, NEW JERSEY, USA, November 24, 2015 /EINPresswire.com/ -- [Pre-Filled Syringes East Coast](#) will take place in Iselin, New Jersey, USA on 25th -26th April 2016.

With exponential growth of biologics and protein-based products, demand for pre-filled syringes (PFS) is growing on an exponential scale. As such, the global pre-filled syringes (PFS) market is presenting lucrative opportunities for both pharma and device companies - the investment forecast expects to exceed \$6.6.bn by 2020. According to a recent study led by Brigham and

Women's Hospital (BWH) in Boston*, switching to PFS can also cut related costs by almost 50%, equivalent to \$162,000 in savings!

While we have witnessed booming investments in PFS, pharma and device manufacturers still need to overcome a number of challenges to commercialize PFS. It also faces fierce competition with innovative drug delivery platforms. Hence, developing a drug-compatible and patient-centric PFS remain top priority amongst market participants.

Emulating the previous success of the 2015 show, the 3rd annual ["Pre-Filled Syringes East Coast"](#) event, will delve further into the core issues of PFS including: human factor engineering; PFS material selection and GMP compliance; compatibility and injectability considerations for complex biologics and combination product.

The agenda is available to download online at www.pfsamericas.com/EIN

Speakers Include:

- Stephen Barat, Executive Director, Non-Clinical & Translational Sciences, Safety Assessment & Bioanalysis, Allergan
- Ravi S. Harapanhalli Ph.D., Principal, FDAPharma Consulting LLC
- Mathias Romacker, Senior Director, Device Strategy, Pfizer
- Dr. Paolo Mangiagalli, Senior Director, Head PFS Platform, Sanofi
- Ken Wong, Deputy Director, MTech/ Process Technology – Extractables & Leachables, Sanofi Pasteur
- Carsten Worsoe, Principal Scientist, CMC Analytical Support, Novo Nordisk A/S
- Dr. Shawn Davis, Principal Engineer, Device Strategy, Amgen
