

Aotearoa Beauty Releases New Youtube Video On How To Use Their Blackhead Remover Kit

LOS ANGELES, CA, USA, November 28, 2015 /EINPresswire.com/ -- This week Aotearoa Beauty has released a new instructional video that shows users of their [Blackhead Remover Kit](#) how to [remove blackheads and pimples](#). The three minute video features Aotearoa founder Neil MacKenzie with a step-by-step visual instruction.

The video can be seen on Youtube at: <https://www.youtube.com/watch?v=6qROVtKwc4Y>

The Aotearoa Beauty Blackhead Remover Kit includes 5 stainless steel tools like the ones used by spas and clinics. The tools can be used easily and safely as a blackhead extractor, pimple extractor, and to [remove comedones](#).

The video starts by showing users how to clean the tools using anti-bacterial soap. Then viewers are instructed how to open up the pores on their face using steam, warm water, or in the shower.

Next MacKenzie demonstrates how to use the tools to extract pimples and blackheads. "It doesn't matter which tool you use to extract a particular zit. All the tools basically work the same way. Pick the tool that seems to fit the area of your face and blemish," MacKenzie said.

The video shows users how to work the tool back and forth, then pull back to extract the pimple. The entire instruction video takes slightly less than three minutes, demonstrating the ease of using the tool set.

"We have been overwhelmed by the positive response we've gotten from the thousands of people

who have bought our Blackhead Remover Kit on Amazon and eBay. You can find lots of enthusiastic reviews on Amazon where buyers say they are getting remarkable results," MacKenzie said.

The tools, which are easy to sterilize, are recommended by Dermatologists for removing blemishes. Doctors advise against squeezing pimples with fingers because bacteria on the fingers can get into pores. This can cause infection and scarring.
