

# MageWorx.Com releases two new Magento Extensions, introduces advanced Magento-Sphinx integration

*The company presents two new Magento order management solutions, enhances its Search Suite Magento extension with a set of Sphinx Config features.*

MINNEAPOLIS, MN, USA, December 4, 2015  
/EINPresswire.com/ -- MageWorx.Com, an established developer of top-ranking Magento extensions, rolls out two new [Magento Admin tools](#). These are:

1. Advanced [Magento Orders Grid](#) — extends the default order view functionality by delivering a more detailed data pattern, optimizes the process of order deleting and archiving.

2. [Magento Order Editor](#) — provides a complete set of tools for editing Magento orders (without canceling them).

Also, the company enhanced its Magento search solution. The updated version of Search Suite simplifies the process of integrating a Magento store with Sphinx, one of the most popular eCommerce search engines.

"Because of the open source nature, Magento offers unlimited possibilities for optimizing practically every eCommerce aspect: from streamlining the process backend order management to enhancing user experience via more precise, intuitive onsite search," says Vitali Dudin, MageWorx CEO.

"Through our experiences in the industry as well as our proven Magento development techniques, we have created 2 fully-fledged Magento orders management solutions, that will be of great help to any Magento store owner," says Vitali.

"On top of that, our Magento search solution — Search Suite — received a major update. The new version of the extension significantly simplifies the process of Sphinx integration thus empowering the default Magento search capabilities," adds Vitali.

\*Special offer\*

New Magento order management extensions, as well as Magento Search extension is now available at a discounted rate.

The discount coupon - 20%OFFUPDATE. The code stays valid till Dec 17, 2015.
