Among the many topics discussed is the comparison of [hosted business phone rates](#), various systems' features, availability, quality and more. During the convention, some technologies and floral industry experts spoke and discussed various topics. 37 educational sessions and events transpired throughout the weekends scheduled experience. Also, 48 expert speakers spoke at the event, including presentations from such giants as Google, the Ritz-Carlton Leadership

Center, and WikiTrend.org.

Speakers, guests, and industry insiders also looked at other communication systems and technologies, such as [Cisco IP phones](#). Businesses of all sizes attended the event to learn more about how affordable and high-quality communications of the future are presently being utilized to propel commerce forward.

Businesses of all sizes learned from some of the best experts that are accomplished in several industries including speaker and world renowned trends expert Daniel Levine, who explained, "...how floral businesses can thrive by turning trends into profitable opportunities. Using examples from other industries." Mr. Levine demonstrated the bottom-line impact of aligning business with the needs and desires of consumers. Attendees walked away with remarkable insights into the trends that power the retail buy — and how to harness them successfully.

Other topics discussed included best hiring and management practices. These are vital, according to the event's organizers, for businesses of all sizes and in all industries to understand and master to succeed. Attendees also learned about a host of other topics, which included cash management, cash forecasting, stress management, and team building.

Among the various subjects addressed, two of particular interest are the leveraging marketing tactics for life events, and, floral industry trends. These are essential to increase revenues and expand books of business, reaching out to consumers beyond city limits. The attendees learned about these marketing and management tactics from the copying practices set by Fortune 500 Companies.
