

Ever Win International Launches New High Power Division Atlas EVSE

Expanding into the exciting growth market of electric vehicle charging, new division Atlas EVSE to focus on residential EV chargers

CITY OF INDUSTRY, CALIFORNIA, USA, December 18, 2015 /EINPresswire.com/ -- Ever Win International today announced the launch of a new High Voltage EV Power Division to be named Atlas EVSE and will be showcasing their new product line at this year's CES in Las Vegas. This new division will be focused on bringing to market EVSE devices intended to charge a wide range of Electric Vehicles, aimed initially at residential chargers in the North America market and soon to follow, the European Union and the China Domestic markets.

Atlas EVSE products will be UL listed, fully tested and incorporate the latest safety features along with NEMA rating for indoor and outdoor installations.

Power output of the Atlas EVSE residential products will primarily focus on Level 2 charging up to 30 Amps over 240Volt service outlets. Easy to relocate units with NEMA 50 Amp plugs allows the end consumer to remove the units from their home installations should they move to a new residence. Installation of a 40 Amp circuit breaker and outlet is required for most home applications and can be done by a typical certified electrician.

Ever Win International is scheduled to launch this new division and line up of EVSE products by the end of Q1-2016. More information will be available in the coming weeks at atlasevse.com (coming soon) and on www.everwin.com

To schedule a meeting to see their new line up please contact; Robert Stern, Product Development Manager – Ever Win International/Atlas EVSE - Robert.stern@everwin.com

About Ever Win International:

Ever Win was established in 1981 as a vertically-integrated solutions provider to mobile communications and consumer electronics accessories industries. Boasting state-of-the-art engineering labs in both the U.S. and Asia, including our ISO9001:2008, ISO14001:2004, TS16949, OHSAS18001, QC080000:2005 certified facilities, Ever Win's global manufacturing and distribution capabilities along with a comprehensive list of value-added services, equates to a streamlined process for bringing products to market for their customers throughout the world. Ever Win products are branded under a variety of household names you trust and as a manufacturer of custom solutions for many of the world's most successful OEMs means many consumers have unknowingly seen and used their products. The company is headquartered in City of Industry, California, with offices in Taiwan, Hong Kong and China. For more information, visit everwin.com. Ever Win currently owns 60 U.S and International patents plus 30 pending patents.
