*Adam Elements, a leading smart lifestyle solutions brand, is excited to announce the launch of its latest version of iKlips – the iKlips DUO and the new APP.*

TAIPEI, TAIWAN, January 6, 2016 /EINPresswire.com/ -- [Adam Elements](#) will be hosting demonstrations at ARIA and The Venetian hotels during the CES, so it will be easy for you to enjoy both CES and a more exciting lineup from us. Because in addition to iKlips DUO, we will be revealing our other developments for a smarter and fitter future.

iKlips DUO – the best made better

If you became attached to iKlips the first time round, then you'll love what we have in store with the new iKlips DUO. It's a design that's been perfected to be more practical, with a redesigned body to fit even more iPhone and iPad cases and a silicone body sleeve for added protection. Losing connector caps is now a thing of the past. Produced with top quality MLC flash memory, it has the world's fastest flash memory for iPhone, iPad, and iPad Pro. But in addition to enabling greater speeds, it provides greater stability and a longer lifespan, so it will last as long as you want it to. And with its gorgeous high-grade aluminum body, you'll be wanting to use it as often as possible. It's gorgeous to hold and use

iKlips 2 – the DUO's other half

iKlips 2 is the other half of what makes iKlips DUO even better. It's an intuitive app that makes using your iKlips DUO an even easier experience, featuring 3D Touch support, multi-select, Spilt View, password protection, Drop To, and even integration with Apple's Music app to access your iTunes purchases. Now all your music, photos, videos, work projects, Adobe files, and all your other creations can be securely shared between devices – iPhone, iPad, iPad Pro, Mac, and PC. Having the ability to organize, store more and share on the go with friends, family, and colleagues gives you the power to do more. iKlips 2 is the way you want to manage your device – easily.
