

Gatonbrass Was Rated To Be The Best Brass Parts Manufacturer & Exporter In China

Gatonbrass has been rated to be the best brass parts manufacturers and exporter in China.

ZHONGSHAN, GUANGDONG, CHINA, January 6, 2016 /EINPresswire.com/ -- [Gatonbrass](#) has been rated to be the best brass parts manufacturers and exporter in China. Gatonbrass becomes one of the Chinese companies to be trusted by brass parts importers.

“Many thanks to all our partners that are making Gatonbrass become a premier brass parts manufacturer and exporter,” said Erik, the Product Manager. “We have been able to uphold out the philosophies of quality production process, total cost advantage and short lead time. This came at a time we least expected it and we promise to fulfill our obligations as brass parts exporters,” he added.

Gatonbrass registered the highest number of exports in the financial year ending 2015. Currently, it is one of the largest manufacturer of brass parts. The key aspects that are unique to this company include:

Quality production process

The company has integrated modern technology in their manufacturing systems. This not only reduces the lead time, but also, increases efficiency.

Gatonbrass has managed to maintain a competitive advantage by ensuring that they can:

1. Increase their production capacity. This is at least 10 tons per day.
2. Provide the desirable solution within 24 hours.
3. To produce parts that have no air hole with 50um milling machines.

- 4. Guarantee 100% inspection of all parts before shipping.
- 5. Integrate 3D printing, ODM and CAD.

A wide range of production capability

This is one of the leading brass parts exporter that manufactures parts using different technologies. This basically depends on the consumer requirements and demands. These include brass: [brass die casting](#), forging, [brass sand casting](#), investment casting and other secondary operations.

Equipment and machinery

Gatonbrass invested over \$1,000,000 in machinery and equipment. This was also due to the increasing number of brass parts importers. The company has 9 die casting machines. These range from 180 tons to 850 tons. They have the capability of between 10g and 5kg. The machines can process brass parts with a thickness between 1mm and 5mm.

We provide free tooling for die casting brass parts
Free Tooling For Die Casting Parts

This explains the reason why the company was also rated to be one most efficient brass parts manufacturer and exporter in China.

The technical staff

Gatonbrass has some of the most knowledgeable technical staff. They have helped over 1,000 customers to conceptualize their designs and interpret the CAD drawings. Thus, the high tooling accuracy that has been registered in the recent past by the company.

Customer experience

The company has one of the best customer relationship in the industry. Gatonbrass has been assisting its customers and communicating with them from the brass part conceptualization through the production process.

This ranking was mainly based on the above 5 crucial aspects. Gatonbrass emerged to top the list. This actually made the company to be rated the best brass parts manufacturer and exporter in China.

About Gatonbrass

Gatonbrass is a premier brass parts manufacturer that offers a one-stop-solution for brass casting. The company produces a wide range of brass parts and guarantees a total cost advantage for all brass parts.
