

# Positive Energy Solar Partners with Global Solar Technology Leader to Become SunPower Master Dealer

---

*Bringing International Solar Expertise and Local, Personalized Customer Service to New Mexico Homeowners*

ALBUQUERQUE, NM, USA, January 15, 2016 /EINPresswire.com/ -- [Positive Energy Solar](#), a [New Mexico-based](#) solar installer, has joined the [SunPower](#)® Master Dealer network, a strategic partnership program designed to deliver global solar expertise to local communities through leading independent solar installers. SunPower carefully selects its Master Dealers, awarding the distinction only to installers that consistently put customers first and deliver the superior SunPower experience at every step of a customer's unique solar energy journey.

Master Dealers offer complete SunPower solar solutions to homeowners, including the highest quality consultation and system services. Master Dealers leverage the strength and credibility of the globally trusted SunPower brand in key geographies based on a superb knowledge of the company's technology, the local solar market, and industry best practices.

"We congratulate Positive Energy Solar for their extraordinary commitment to helping homeowners reach their energy goals with SunPower solar while demonstrating the highest standards expected of a SunPower Master Dealer," said Howard Wenger, SunPower president, business units. "The SunPower Master Dealer program recognizes exceptional independent installers for their relentless focus on providing quality customer service to complement the most efficient solar technology available on the market today. We welcome Positive Energy Solar to the SunPower Master Dealer network and look forward to their continued success."

Certified SunPower Master Dealers handle the entire solar energy process for customers, which can include system design, installation, maintenance, permitting, and rebate processing, as well as advice on flexible financing options. Master Dealers complete regular, in-depth training on SunPower products and services in order to provide customers with the best possible solar experience, and offer peace of mind when choosing SunPower by Positive Energy Solar to install the industry's most reliable solar technology. Positive Energy Solar will re-brand as SunPower by Positive Energy Solar, rolling out their new look over the next several months at all three New Mexico offices.

"Our customers choose to go solar with us because they trust that we will provide them with a quality product backed by an industry leading warranty and world class customer service," said Regina Wheeler, Chief Executive Officer of Positive Energy Solar. "We are committed to shifting New Mexico toward a smarter more sustainable energy future. Deepening our relationship with SunPower is the next logical step in our mission to help solarize New Mexico."

The SunPower dealer network consists of more than 1,200 companies worldwide that sell, install and service SunPower solar energy solutions. The SunPower dealer program now includes Master, Elite, Premier and Authorized dealer designations.
