

How to Architects “Zero Trust” Security in SCADA Networks and Industrial Control Systems

SMi Group reports: Lionel Jacobs, SCADA Security Architect, Palo Alto Networks has joined the speaker line-up of SMi's European Smart Grid Cyber Security event.

LONDON, UNITED KINGDOM, January 18, 2016 /EINPresswire.com/ -- SMi Group is delighted to announce: Lionel Jacobs, SCADA Security Architect at Palo Alto Networks has joined the speaker line-up of SMi's 6th annual European [Smart Grid Cyber Security](#), 7th-8th March 2016, Holiday Inn Kensington Forum, London, UK. His presentation will be titled: “How to architect “Zero Trust” security in SCADA networks and industrial control systems”.

The presentation will include the following topics:

The 6th annual show will offer to the auditory a unique opportunity to network with senior experts in cyber security from utilities, TSOs, regulators, solution providers and more!

SMi Group

- What is the “zero-trust” approach and how to use it to architect for prevention and plan for detection
- How to bolster your network visibility and segmentation without having to completely re-engineer the infrastructure
- How to realize these concepts in a systematic, organised, and minimally disruptive way
